Core Waste Team Leader: views received 16 May 2022

The refuse tracking does appear to show that our fleet would be able to access the properties on this application.

We would request a developer contribution towards bins which are currently priced at £18.69/container, with each property needing 2 containers, one Grey (domestic waste) and one Green (recycling waste).

That means a financial contribution of £37.38 per unit, totalling £3364.20 would be required.

Following the submission of further information regarding drainage, NWWM have confirmed that condition 10 regarding levels is no longer required.

The approved levels plan (External Levels Layout 1A) will be added to the approved plans listed in condition 2.

Condition 10 will be deleted.

The remaining conditions will be re-numbered.
