

Public Document Pack

BROMSGROVE DISTRICT COUNCIL

MEETING OF THE CABINET

WEDNESDAY 19TH FEBRUARY 2025, AT 1.00 P.M.

COMMITTEE ROOM 2 - PARKSIDE

SUPPLEMENTARY PAPERS 1

4. **Local Development Scheme** (Pages 3 - 4)

This Supplementary Papers 1 Pack contains the updated recommendations from those previously published in respect of the Local Development Scheme report. Cabinet will consider these updated recommendations at the above meeting.

The Overview and Scrutiny Board are due to pre-scrutinise this report at its meeting on 17th February 2025. Any recommendations as a result of this pre-scrutiny will be published in a supplementary pack and be tabled at the Cabinet meeting.

5. **Council Tax Resolutions** (Report to Follow) (Pages 5 - 16)

This report is due to be pre-scrutinised at a meeting of the Finance and Budget Working Group scheduled to take place on 18th February 2025 prior to its consideration at this Cabinet meeting. Any recommendations arising from that meeting will be tabled at the Cabinet meeting.

6. **Medium Term Financial Plan - Tranche 2 Budget including Fees and Charges (following consultation) (Pages 17 - 94)**

Following consideration of the report at the Cabinet meeting held on 12th February 2025 changes were made to the Medium-Term Financial Plan - Tranche 2 Budget including Fees and Charges (following consultation). The recommendations that were agreed at this meeting on 12th February 2025 have been referenced in the updated covering report.

To ensure transparency in respect of the decision on this report, included in this Supplementary Papers 1 pack are an updated version of the Medium-Term Financial Plan - Tranche 2 Budget including Fees and Charges (following consultation) covering report and all appendices including Appendix A to the report which has not previously been published.

Appendix B contains exempt information and may need to be considered in private session.

This updated report is due to be pre-scrutinised at a meeting of the Finance and Budget Working Group prior to its consideration at this Cabinet meeting. Any recommendations arising from that meeting will be reported for Cabinet's consideration in a supplementary papers pack.

8. **To consider, and if considered appropriate, to pass the following resolution to exclude the public from the meeting during the consideration of item(s) of business containing exempt information:-**

"RESOLVED: that under Section 100 I of the Local Government Act 1972, as amended, the public be excluded from the meeting during the consideration of the following item(s) of business on the grounds that it/they involve(s) the likely disclosure of exempt information as defined in Part I of Schedule 12A to the Act, as amended, the relevant paragraph of that part, in each case, being as set out below, and that it is in the public interest to do so:-

1. RECOMMENDATIONS

1.1 Cabinet is asked to **NOTE** that at its meeting on 25th January 2025 they approved the calculated council tax base 2025/26 as:

- (a) for the whole council area as 38,359.9 [item T in the formula in section 31B of the Local Government Finance Act 1992, as amended (the “Act”)]; and
- (b) for dwellings in those parts of its area to which a parish precept relate the amount as shown in column 5 of the attached **schedule 1**.

1.2 Cabinet is asked to **RECOMMEND** to council that they approve:

1.2.1 The calculation for the council tax requirement for the council’s own purposes for 2025/26 (excluding parish precepts) as **£9,876,907.05**

1.2.2 That the following amounts be calculated for the year 2025/26 in accordance with sections 31 to 36 of the Act:

- a) £48,010,187.83 being the aggregate of the amounts which the council estimates for the items set out in section 31A(2) of the Act (taking into account all precepts issued to it by Parish Councils) (i.e., gross expenditure)
- b) £36,759,479.34 being the aggregate of the amounts which the council estimates for the items set out in section 31A(3) of the Act. (i.e gross income).
- c) £11,250,708.49 being the amount by which the aggregate of 1.2.2(a) above exceeds the aggregate of 1.2.2(b) above, calculated

by the council, in accordance with section 31A(4) of the Act, as its council tax requirement for the year. (Item R in the formula in section 31B of the Act).

- d) £293.29 being the amount at 1.2.2(c) above (Item R), all divided by Item T (1.1(a) above), calculated by the council, in accordance with section 31B of the Act, as the basic amount of its council tax for the year (including parish precepts).
- e) £1,373,801.44 being the aggregate amount of all special items (parish precepts) referred to in section 34(1) of the Act (as per the attached **schedule 3**)
- f) £257.48 being the amount at 1.2.2(d) above less the result given by dividing the amount at 1.2.2(e) above by Item T (1.1 (a) above), calculated by the council, in accordance with section 34(2) of the Act, as the basic amount of its council tax for the year for dwellings in those parts of its area to which no parish precept relates.
- g) The amounts shown in column 4 of **schedule 1**. These are the basic amount of council tax for the year for dwellings in those parts of the council's area shown in column 1 of the schedule respectively to which special items relate, calculated by the council in accordance with section 34(3) of the Act. (District and parish combined at band D).
- h) The amounts shown in columns 7 to 14 of **schedule 1** being the amount given by multiplying the amount at 1.2.2(g) above by the number which, in the proportion set out in section 5(1) of the Act, is applicable to dwellings listed in a particular valuation band divided by the number of dwellings listed in valuation band D, calculated by the council, in accordance with section 36(1) of the Act, as the amounts to be taken into account for the year in respect of categories of dwellings listed in different valuation bands.

1.2.3 It is to be noted that for the year 2025/26, Worcestershire County Council, Police and Crime Commissioner for West Mercia, and Hereford and Worcester Fire Authority have issued precepts to the council in accordance with section 40 of the Act for each category of dwelling in the council's area as indicated below:

	Valuation Bands							
	A	B	C	D	E	F	G	H
	£	£	£	£	£	£	£	£
Worcestershire County Council	1,077.14	1,256.66	1,436.19	1,615.71	1,974.76	2,333.80	2,692.85	3,231.42
Police and Crime Commissioner for West Mercia	194.33	226.72	259.11	291.50	356.28	421.06	485.83	583.00

Hereford and Worcester Fire Authority	68.15	79.50	90.86	102.22	124.94	147.65	170.37	204.44
---------------------------------------	-------	-------	-------	--------	--------	--------	--------	--------

1.2.4 That having calculated the aggregate in each case of the amounts at 1.2.2(h) and 1.2.3 above, that Bromsgrove District Council in accordance with sections 30 and 36 of the Local Government Finance Act 1992 hereby sets the amounts shown in **schedule 2** as the amounts of council tax for 2025/26 for each part of its area and for each of the categories of dwellings.

1.2.5 The Director of Resources by authorised to make payments under section 90(2) of the Local Government Finance Act 1988 from the collection fund by ten equal instalments between April 2025 to March 2026 as detailed below

	Precept (£)	Surplus/Deficit on Collection Fund (£)	Total to Pay (£)
Worcestershire County Council	61,978,747.00	417,276.00	62,395,750.00
Police and Crime Commissioner for West Mercia	11,181,910.85	75,243.70	11,257,154.55
Hereford and Worcester Fire and Rescue Authority	3,921,149.04	26,361.05	3,947,510.09

1.2.6 The Director of Resources is authorised to make transfers under section 97 of the Local Government Finance Act 1988 from the collection fund to the general fund the sum of £11,250,708.49 being the council's own demand on the collection fund (£9,876,907.05) and parish precepts (£1,373,801.44) and the distribution of the surplus/deficit on the collection fund (£76,521.40).

1.2.7 That the Director of Resources is authorised to make payments from the general fund to parish councils the sums listed on **Schedule 3** by two equal instalments on 1st April 2025 and 1st October 2025 in respect of the precept levied on the council.

1.2.8 That the above resolutions to be signed by the Chief Executive for use in legal proceedings in the Magistrates' Court for the recovery of unpaid council taxes.

1.2.9 Notices of the making of the said council taxes signed by the Chief Executive are given by advertisement in the local press under section 38(2) of the Local Government Finance Act 1992.

2. BACKGROUND

2.1 The report seeks approval of the appropriate formal resolutions to determine the levels of council tax for Bromsgrove District Council for financial year 2025/26. The levels of tax take account of the requirements of Bromsgrove District Council, Worcestershire County Council, Police and Crime Commissioner for West Mercia, Hereford and Worcester Fire and Rescue Authority and the various parish councils

3. FINANCIAL IMPLICATIONS

3.1 It is necessary to formally set Council Tax levels throughout the area for the spending requirements of Bromsgrove District Council, Worcestershire County Council, Police and Crime Commissioner for West Mercia, Hereford and Worcester Fire Authority and the various parish councils.

3.2 Details have been received from the various precepting bodies to enable the Council to set the Council Tax for 2025/26. The amounts of the precepts are set out below:

	£
Worcestershire County Council	61,978,474.00
Police and Crime Commissioner for West Mercia	11,181,910.85
Hereford and Worcestershire Fire and Rescue Authority	3,921,149.04
Bromsgrove District Council	9,876,907.05
Parish Precepts	1,373,801.44
Total	88,332,242.38

The parish council precepts for 2025/26 are detailed in the attached **schedule 3**.

3.3 If the council approves the recommendations set out above the average band D council tax in 2025/26 will be £2,302.72, made up as follows

Authority	2024/25 (£)	2025/26 (£)	Increase %
Bromsgrove District Council	250.00	257.48	2.99
Worcestershire County Council	1,538.92	1,615.71	4.99
Police and Crime Commissioner for West Mercia	277.50	291.50	5.05
Hereford and Worcestershire Fire and Rescue Authority	97.22	102.22	5.14

Cabinet
2025

19th February

Parish Precepts	32.21	35.81	11.18
-----------------	-------	-------	-------

The % increases all relate to the change from current year levels.

4. LEGAL IMPLICATIONS

- 4.1 The Localism Act 2011 made significant changes to the Local Government Finance Act 1992 and requires the billing authority to calculate a Council Tax requirement for the year, not its budget requirement as was previously the case.

5. OTHER - IMPLICATIONS

Relevant Council Priority

- 5.1 The council priorities are included in the Council's corporate plan and guides the council's approach to budget making ensuring we focus on the issues and what are most important for the district and our communities. Our MTFP and strategies are integrated within all of the council's priorities.

Climate Change Implications

- 5.2 The green thread runs through the Council plan. The MTFP has implications on climate change and these will be addressed and reviewed when relevant by climate change officers to ensure the correct procedures have been followed to ensure any impacts on climate change are fully understood.

Equalities and Diversity Implications

- 5.3 Any impact on the customer of savings over the MTFP period will be managed via impact assessments and in discussion and consultation with the customer as to the most effective and supportive way of managing reductions in funding and potentially service delivery.

6. RISK MANAGEMENT

- 7.1 The risks associated with the budget estimations are included in the MTFP report as presented to Cabinet on 19th February 2025.

8. BACKGROUND PAPERS

Non-Key Decision	
If you have any questions about this report, please contact the report author in advance of the meeting.	

1. SUMMARY OF PROPOSALS

- 1.1 The Councils Medium Term Financial Plan (MTFP) was presented to Cabinet on the 12th February 2025. This report updates that report for changes that were highlighted by Overview and Scrutiny Committee on the 11th February and Cabinet itself on the 12th February. These changes slightly alter the figures, all recommendations remain the same.

2. RECOMMENDATIONS

Cabinet are asked to Recommend to Council that:

- 1 The updated MTFP following discussions at Overview and Scrutiny Committee on the 11th February and amendments agreed at Cabinet on the 12th February, as detailed in the Cabinet minute 69/24, is approved.
- 2 Subject to incorporating the changes detailed in recommendation 1 above, the MTFP Recommendations made in the report to Cabinet on the 12th February are approved.

Cabinet note that:

3. Members understand and accept the implications set out in the Section 151 Officer's Robustness (Section 25) Statement of this 2025/26 to 2027/28 Medium Term Financial Plan in moving the Council to financial sustainability.
4. The need for accelerated business cases to be worked up to enable upgrades of infrastructure to the District for consideration in line with work set out in paragraph 3.19 of the Appendix for completion prior to vesting day.

CABINET

19th February 2025

3. Background

Introduction

- 3.1 The final budget proposals were submitted to Cabinet for approval to Council at its meeting on the 12th February 2025.
- 3.2 Cabinet at this meeting discussed in detail the debate that had taken place the previous evening in respect of the Parking Report that had been scrutinised at the Overview and Scrutiny Committee.
- 3.3 Cabinet agreed for the following changes to be incorporated into the MTFP:
- a) An additional £85,000 be added to parking budgets, which is broken down as:
 - i) Additional funding of £70,000 for increased numbers of Civil Enforcement Officers (CEOs)
 - ii) £15,000 for maintenance of an Automatic Number Plate Recognition (ANPR) system
 - b) £100,000 added to the Capital Budget in 2025/26 for ANPR systems to Recreation Road South, St Johns and Windsor Street car parks
- 3.4 In addition to this, paragraph 3.19 of the MTFP report was discussed in detail and the wording amended to ensure
- Schemes are prioritised
 - That General Fund balances do not reduced below the £5m mark (which is still two times the recommended minimum level of General Fund Reserves suggested by the Government).
- 3.5 Following correspondence from Birmingham City Council on access to GBSLEP funding during the 2025/26 financial year, this risk has been added to the Risk Section.
- 3.6 These changes are recognised in the updated MTFP Tranche 2 Papers set out in Appendix A.
- 3.7 For transparency, the changes impact the following sections of the report:
- 3.15 Including the limit reducing the General Fund Balance to £5m, the word prioritisation added, and including the works for Rubery
 - 3.27 Addition of the parking schemes and the implications on balances
 - 3.28 Changes to balances from the changes.

BROMSGROVE DISTRICT COUNCIL

CABINET

19th February 2025

- 3.33 Changes to balances from the changes.
 - 3.34 Changes to balances from the changes.
 - 3.40 Changes in capital table.
 - 3.42 Addition to the Capital Programme of £100k for ANPR machines
 - 3.46 Added the additional risk of access to GBSLEP funds from Birmingham City Council
 - 3.56 Changes to balances from the changes.
 - 3.61 Changes to balances from the changes
 - 3.62 Changes to balances from the changes.
 - Appendix D Reserves Position – updated for changes
 - Appendix E Capital Programme – updated for changes
- 3.8 Appendix A of the MTFP has now been added to show the draft departmental budgets.
- 3.9 The Changes are
- 25/6 Revenue bottom line changing from a £167k deficit to a £252k deficit.
 - 26/7 Revenue bottom line changing from a £1,030k deficit to a £1,115k deficit.
 - 27/8 Revenue bottom line changing from a £399k deficit to a £484k deficit.
 - Support from Reserves rising from £1,596k to £1,851k
 - General fund balances reducing from £12,781m to £12.526m
 - Capital spending in 2025/26 increasing from £8.017m to £8.117m
- 3.10 Following the significant consultation carried out in Tranche 1 of the budget there have been no comments on Tranche 2.

4. **IMPLICATIONS**

Financial Implications

- 4.1 Financial implications are set out in Section 3.

Legal Implications

- 4.2 A number of statutes governing the provision of services covered by this report contain express powers or duties to charge for services. Where an express power to charge does not exist the Council has the power under Section 111 of the Local Government Act 1972 to charge where the activity is incidental or conducive to or calculated to facilitate the Council's statutory function.

CABINET

19th February 2025

Service / Operational Implications

- 4.3 Monitoring will be undertaken to ensure that income targets are achieved through the Quarterly Finance and Performance Reports to Cabinet and the Quarterly Savings Reports to Audit Standards and Governance Committee.

Customer / Equalities and Diversity Implications

- 4.4 The implementation of the revised fees and charges will be notified in advance to the customer to ensure that all users are aware of the new charges and any concessions available to them.
- 4.5 Initial Equalities Impact Assessments must be taken where required. None have been required with this budget.

5. RISK MANAGEMENT

- 5.1 It is crucial that the Councils sets a balanced budget in order for it to deliver sustainable services to its Stakeholders. There are significant risks in any budget and these are set out in sections 3.44 to 3.47 of Appendix A.
- 5.2 There is a risk that if fees and charges are not increased that income levels will not be achieved, and the cost of services will increase. This is mitigated by managers reviewing their fees and charges annually.

6. APPENDICES

Appendix F – Capital Strategy

Introduction

- 1.1 This capital strategy report gives a high-level overview of how capital expenditure, capital financing and treasury management activity contribute to the provision of local public services along with an overview of how associated risk is managed and the implications for future financial sustainability. It has been written in an accessible style to enhance members’ understanding of these sometimes technical areas.
- 1.2 Decisions made this year on capital and treasury management will have financial consequences for the Authority for many years into the future. They are therefore subject to both a national regulatory framework and to local policy framework, summarised in this report.

Capital Expenditure and Financing

- 1.3 Capital expenditure is where the Authority spends money on assets, such as property or vehicles, that will be used for more than one year. In local government this includes spending on assets owned by other bodies, and loans and grants to other bodies enabling them to buy assets.
- 1.4 In 2025/26, the Authority is planning capital expenditure of £2.7m as summarised below:

Table 1: Prudential Indicator: Estimates of Capital Expenditure in £ millions

	2023/24 actual	2024/25 forecast	2025/26 budget *	2026/27 budget	2027/28 budget
General Fund services	3.4	4.2	2.7	2.3	1.5
Regeneration	0.5	1.9	0.0	0.0	0.0

BROMSGROVE DISTRICT COUNCIL

CABINET

19th February 2025

TOTAL	3.9	6.1	2.7	2.3	1.5
-------	-----	-----	-----	-----	-----

The Council is still to finalise work required for the adoption of IFRS16 linking to the accounting for leases which must be implemented by the 2025/26 financial year.

- 1.5 The main General Fund capital projects are the three Levelling Up Projects which amount to £16m of expenditure and include Public Realm Improvements £1.0m, The New Market Hall Centre amounts to £10.3m, and clearance of the Windsor Street site ready for redevelopment. The Council received approval from the Ministry of Housing, Local Government and Communities on the 30th January 2025 that delivery of these projects could be extended until the 31st March 2026. Both the Windsor Street and Public Realm projects were completed by the end of the 2024/5 financial year. The Burcot housing development was completed in early 2024 (£10.0m). Following a change in the Prudential Code, the Authority no longer incurs capital expenditure on investments.
- 1.6 **Governance:** Service managers bid annually in January to include projects in the Authority's capital programme. Bids are collated by corporate finance who calculate the financing cost (which can be nil if the project is fully externally financed). The Audit Standards and Governance Committee and then the Cabinet appraises all bids based on a comparison of strategic priorities against financing costs and makes recommendations to Council. The final capital programme is then presented to Cabinet in February and to Council in February each year.
- For full details of the Authority's capital programme, including the project appraisals undertaken, see Tranche 2 of the 2025/26 Medium Term Financial Plan.
- 1.7 All capital expenditure must be financed, either from external sources (government grants and other contributions), the Authority's own resources (revenue, reserves and capital receipts) or debt (borrowing, leasing and Private Finance Initiative). The planned financing of the above expenditure is as follows:

Table 2: Capital financing in £ millions

BROMSGROVE DISTRICT COUNCIL

CABINET

19th February 2025

	2023/24 actual	2024/25 forecast	2025/26 budget *	2026/27 budget	2027/28 budget
External sources	0.9	2.7	0.8	0.8	0.8
Own Resources	3.0	3.4	1.9	1.5	0.7
Debt	0.0	0.0	0.0	0.0	0.0
TOTAL	3.9	6.1	2.7	2.3	1.5

- 1.8 Debt is only a temporary source of finance, since loans and leases must be repaid, and this is therefore replaced over time by other financing, usually from revenue which is known as minimum revenue provision (MRP). Alternatively, proceeds from selling capital assets (known as capital receipts) may be used to replace debt finance. Planned [MRP / repayments] and use of capital receipts are as follows:

Table 3: Replacement of prior years' debt finance in £ millions

	2023/24 actual	2024/25 forecast	2025/26 budget *	2026/27 budget	2027/28 budget
Minimum revenue provision	0.9	1.2	1.3	1.3	1.4
Capital Receipts	0.9	2.0	0.0	0.0	0.0

- The Authority's full minimum revenue provision statement is available within the body of this report.

- 1.9 The Authority's cumulative outstanding amount of debt finance is measured by the capital financing requirement (CFR). This increases with new debt-financed capital expenditure and reduces with MRP and capital receipts used to replace debt. The CFR is expected to increase by £2.7m during 2025/26. Based on the above figures for expenditure and financing, the Authority's estimated CFR is as follows:

Table 4: Prudential Indicator: Estimates of Capital Financing Requirement in £ millions

BROMSGROVE DISTRICT COUNCIL

CABINET

19th February 2025

	31.3.2024 actual	31.3.2025 forecast	31.3.2026 budget	31.3.2027 budget	31.3.2028 budget
General Fund & Regeneration	38.6	42.7	45.4	47.7	49.2
TOTAL CFR	38.6	42.7	45.4	47.7	49.2

1.10 **Asset management:** To ensure that capital assets continue to be of long-term use, the Authority has an asset management strategy in place. Within this strategy, individual properties and associated land will be further evaluated to determine:

- The operational necessity and benefit.
- Projected costs of ensuring all elements of the buildings continue to meet legislative requirements and performance standards.
- Planned and cyclical maintenance costs for elements nearing the end of their 'life' expectancy, ensuring service provision is maintained without unnecessary interruption. Costs associated with meeting future EPC rating minimum requirements.
- Rent levels (and net costs for each building) and revised leases.
- Alternative or rationalised portfolio or joint enterprises for service delivery.

By evaluation of all factors cited above, informed decisions can be made to determine which assets are:

- No longer cost effective to run, where outlay exceeds earning potential
- No longer viable for effective service delivery
- Surplus to requirements

Asset considerations will be presented to Cabinet on a half yearly basis for approval for disposal, unless there is an urgent requirement for a decision.

- 1.11 **Asset disposals:** When a capital asset is no longer needed, it may be sold so that the proceeds, known as capital receipts, can be spent on new assets or to repay debt: The Authority is currently also permitted to spend capital receipts “flexibly” on service transformation projects until 2025/26 although nothing is presently planned. Repayments of capital grants, loans and investments also generate capital receipts. The Authority plans to receive £0m of capital receipts in the coming financial year as follows:

Table 5: Capital receipts receivable in £ millions

	2023/24 actual	2024/25 forecast	2025/26 budget *	2026/27 budget	2027/28 budget
Asset sales	0.9	2.0	0.0	0.0	0.0
Loans etc repaid	0.0	0.0	0.0	0.0	0.0

Treasury Management

- 1.12 Treasury management is concerned with keeping sufficient but not excessive cash available to meet the Authority’s spending needs, while managing the risks involved. Surplus cash is invested until required, while a shortage of cash will be met by borrowing, to avoid excessive credit balances or overdrafts in the bank current account. The Authority is typically cash rich in the short-term as revenue income is received before it is spent, but cash poor in the long-term as capital expenditure is incurred before being financed. The revenue cash surpluses are offset against capital cash shortfalls to reduce overall borrowing.
- 1.13 Due to decisions taken in the past, the Authority currently has no external long term (over 1 year) borrowing and £14.5m treasury investments at an average rate of 4.9%.
- 1.14 **Borrowing strategy:** The Authority’s main objectives when borrowing is to achieve a low but certain cost of finance while retaining flexibility should plans change in future. These objectives are often conflicting, and the Authority therefore seeks to strike a balance between cheaper short-term loans and long-term fixed rate loans where the future cost is known but higher.

BROMSGROVE DISTRICT COUNCIL

CABINET

19th February 2025

- 1.15 The Authority does not borrow to invest for the primary purpose of financial return and therefore retains full access to the Public Works Loans Board.
- 1.16 Projected levels of the Authority's total outstanding debt (which comprises borrowing, PFI liabilities, leases and transferred debt) are shown below, compared with the capital financing requirement (see above).

Table 6: Prudential Indicator: Gross Debt and the Capital Financing Requirement in £ millions

	31.3.2024 actual	31.3.2025 forecast	31.3.2026 budget	31.3.2027 budget	31.3.2028 budget
General Fund (incl. PFI & leases)	3.9	6.1	2.7	2.3	1.5
Capital Financing Requirement	38.6	42.7	45.4	47.7	49.2

- 1.17 Statutory guidance is that debt should remain below the capital financing requirement, except in the short-term. As can be seen from table 6, the Authority expects to comply with this in the medium term.
- 1.18 **Liability benchmark:** To compare the Authority's actual borrowing against an alternative strategy, a liability benchmark has been calculated showing the lowest risk level of borrowing. This assumes that cash and investment balances are kept to a minimum level of £2m at each year-end. This benchmark is currently £5.69m and is not forecast to rise over the next three years.

Table 7: Borrowing and the Liability Benchmark in £ millions

	31.3.2024 actual	31.3.2025 forecast	31.3.2026 budget	31.3.2027 budget	31.3.2028 budget
Forecast Outstanding borrowing - GF	0.0	0.0	0.0	0.0	0.0

BROMSGROVE DISTRICT COUNCIL

CABINET

19th February 2025

Liability benchmark	5.69	5.69	5.69	5.69	5.69
---------------------	------	------	------	------	------

- 1.19 The table shows that the Authority expects to remain borrowed below its liability benchmark. This is because cash outflows to date have been below the assumptions made when the loans were borrowed.
- 1.20 **Affordable borrowing limit:** The Authority is legally obliged to set an affordable borrowing limit (also termed the authorised limit for external debt) each year. In line with statutory guidance, a lower “operational boundary” is also set as a warning level should debt approach the limit.

Table 8: Prudential Indicators: Authorised limit and operational boundary for external debt in £m

	2024/25 limit £m	2025/26 limit £m	2026/27 limit £m	2027/28 limit £m
Authorised limit – borrowing	60	60	60	60
Authorised limit – PFI and leases	1	1	1	1
Authorised limit – total external debt	61	61	61	61
Operational boundary – borrowing	55	55	55	55
Operational boundary – PFI and leases	1	1	1	1
Operational boundary – total external debt	56	56	56	56

- 1.21 **Treasury investment strategy:** Treasury investments arise from receiving cash before it is paid out again. Investments made for service reasons or for pure financial gain are not generally considered to be part of treasury management.
- 1.22 The Authority’s policy on treasury investments is to prioritise security and liquidity over yield, that is to focus on minimising risk rather than maximising returns. Cash that is likely to be spent in the near term is invested securely, for example with the government, other local authorities or selected high-quality banks, to minimise the risk of loss. Money that will be held for longer terms is invested more widely, including in bonds, shares and property, to balance the risk of loss against the risk of receiving returns below inflation. Both near-term and longer-term investments may be held in pooled funds, where an external fund manager makes decisions on which particular investments to buy and the Authority may request its money back at short notice.

Table 9: Treasury management investments in £millions

	2023/24 actual	2024/25 forecast	2025/26 budget *	2026/27 budget	2027/28 budget
Near-term investments	4.5	4.5	4.5	4.5	4.5
Long-term investments	0	0	0	0	0
TOTAL	4.5	4.5	4.5	4.5	4.5

➤ Further details on treasury investments are in the Treasury Management Strategy part of this appendix.

- 1.23 **Risk management:** The effective management and control of risk are prime objectives of the Authority’s treasury management activities. The treasury management strategy therefore sets out various indicators and limits to constrain the risk of unexpected losses and details the extent to which financial derivatives may be used to manage treasury risks.
 - The treasury management prudential indicators are in the treasury management strategy which are part of these appendices.

- 1.24 **Governance:** Decisions on treasury management investment and borrowing are made daily and are therefore delegated to the Director of Finance and staff, who must act in line with the treasury management strategy approved by Council. Quarterly reports on treasury management activity are presented to Cabinet. The Audit, Standards and Governance Committee is responsible for scrutinising treasury management decisions.

Investments for Service Purposes

- 1.25 The Authority makes investments to assist local public services, including making loans to local service providers, local small businesses to promote economic growth, and the Authority's subsidiaries that provide services to stakeholders. Total investments for service purposes are currently valued at £0m.
- 1.26 **Risk management:** In light of the public service objective, the Authority is willing to take more risk than with treasury investments, however it still plans for such investments to break even after all costs. A limit of £2.5m is placed on total investments for service purposes to ensure that plausible losses could be absorbed in budgets or reserves without unmanageable detriment to local services.
- 1.27 **Governance:** Decisions on service investments are made by the relevant service manager in consultation with the Director of Finance and must meet the criteria and limits laid down in the investment strategy. Most loans and shares are capital expenditure and purchases will therefore also be approved as part of the capital programme. The relevant service director and the Director of Finance are responsible for ensuring that adequate due diligence is carried out before investment is made.

Further details on service investments are in the Treasury Management Strategy.

Liabilities

- 1.28 The Authority is committed to making future payments to cover its pension fund deficit (which is in surplus as per the 2022 Triennial revaluation and the backlog will be cleared in 2037). It has also set aside £1.0m for Business Rates appeals.

1.29 **Governance:** Decisions on incurring new discretionary liabilities are taken by Heads of Service in consultation with the Director of Finance. The risk of liabilities crystallising and requiring payment is monitored by the corporate finance team and reported biannually to Cabinet. New liabilities exceeding £0.5m are reported to full council for approval/notification as appropriate.

Revenue Budget Implications

1.30 Although capital expenditure is not charged directly to the revenue budget, interest payable on loans and MRP are charged to revenue. The net annual charge is known as financing costs; this is compared to the net revenue stream i.e. the amount funded from Council Tax, business rates and general government grants.

Table 10: Prudential Indicator: Proportion of financing costs to net revenue stream

	2023/24 actual	2024/25 forecast	2025/26 budget *	2026/27 budget	2027/28 budget
Financing costs (£m)	0.9	1.2	1.3	1.3	1.4
Proportion of net revenue stream	11.40%	11.50%	11.50%	11.50%	11.60%

1.31 **Sustainability:** Due to the very long-term nature of capital expenditure and financing, the revenue budget implications of expenditure incurred in the next few years will extend for up to 50 years into the future. The Director of Finance is satisfied that the proposed capital programme is prudent, affordable and sustainable because of the Medium Term Financial Plan (MTFP) forecasts which show that the Council is financially sustainable over that period.

Knowledge and Skills

- 1.32 The Authority employs professionally qualified and experienced staff in senior positions with responsibility for making capital expenditure, borrowing and investment decisions. For example, the Director of Finance and Head of Service are qualified accountants with significant experience. The Authority pays for junior staff to study towards relevant professional qualifications including CIPFA and AAT.
- 1.33 Where Authority staff do not have the knowledge and skills required, use is made of external advisers and consultants that are specialists in their field. The Authority currently employs Arlingclose Limited as treasury management advisers and Bruton Knowles as property consultants. This approach is more cost effective than employing such staff directly and ensures that the Authority has access to knowledge and skills commensurate with its risk appetite.
- Further details on staff training can be found in the HR Employee Development section of the website.

This page is intentionally left blank

Appendix G – Treasury Management Strategy

Introduction

- 2.1 Treasury management is the management of the Authority’s cash flows, borrowing and investments, and the associated risks. The Authority has invested substantial sums of money and is therefore exposed to financial risks including the loss of invested funds and the revenue effect of changing interest rates. The successful identification, monitoring and control of financial risk are therefore central to the Authority’s prudent financial management.
- 2.2 Treasury risk management at the Authority is conducted within the framework of the Chartered Institute of Public Finance and Accountancy’s *Treasury Management in the Public Services: Code of Practice 2021 Edition* (the CIPFA Code) which requires the Authority to approve a treasury management strategy before the start of each financial year. This report fulfils the Authority’s legal obligation under the *Local Government Act 2003* to have regard to the CIPFA Code.
- 2.3 Investments held for service purposes or for commercial profit are considered in a different report, the Investment Strategy.

External Context

Economic background:

- 2.4 The impact on the UK from the government’s Autumn Budget, slower expected interest rate cuts, a short-term boost to but modestly weaker economic growth over the medium term, together with the impact from President-elect Trump’s second term in office and uncertainties around US domestic and foreign policy, will be major influences on the Authority’s treasury management strategy for 2025/26.
- 2.5 The Bank of England’s (BoE) Monetary Policy Committee (MPC) held Bank Rate at 4.75% at its December 2024 meeting, having reduced it to that level in November and following a previous 25bp cut from the 5.25% peak at the August MPC meeting. At the December meeting, six Committee members voted to maintain Bank Rate at 4.75% while three members preferred to reduce it to 4.50%.
- 2.6 The November quarterly Monetary Policy Report (MPR) expected Gross Domestic Product (GDP) growth to pick up to around 1.75% (four-quarter GDP) in the early period of the BoE’s forecast horizon before falling back. The impact from the Budget pushes GDP higher in 2025 than was expected in the previous MPR, before becoming weaker. Current GDP growth was shown to be zero (0.0%) between July and September 2024 and 0.4% between April and June 2024, a further downward revision from the 0.5% rate previously reported by the Office for National Statistics (ONS).

- 2.7 ONS figures reported the annual Consumer Price Index (CPI) inflation rate at 2.6% in November 2024, up from 2.3% in the previous month and in line with expectations. Core CPI also rose, but by more than expected, to 3.6% against a forecast of 3.5% and 3.3% in the previous month. The outlook for CPI inflation in the November MPR showed it rising above the MPC's 2% target from 2024 into 2025 and reaching around 2.75% by the middle of calendar 2025. This represents a modest near-term increase due to the ongoing impacts from higher interest rates, the Autumn Budget, and a projected margin of economic slack. Over the medium-term, once these pressures ease, inflation is expected to stabilise around the 2% target.
- 2.8 The labour market appears to be easing slowly, but the data still require treating with some caution. The latest figures reported the unemployment rate rose to 4.3% in the three months to October 2024 and economic inactivity fell to 21.7%. Pay growth for the same period was reported at 5.2% for both regular earnings (excluding bonuses) and for total earnings. Looking ahead, the BoE MPR showed the unemployment rate is expected to increase modestly, rising to around 4.5%, the assumed medium-term equilibrium unemployment rate, by the end of the forecast horizon.
- 2.9 The US Federal Reserve has continued cutting interest rates, bringing down the Fed Funds Rate by 0.25% at its December 2024 monetary policy meeting to a range of 4.25%-4.50%, marking the third consecutive reduction. Further interest rate cuts are expected, but uncertainties around the potential inflationary impact of incoming President Trump's policies may muddy the waters in terms of the pace and magnitude of further rate reductions. Moreover, the US economy continues to expand at a decent pace, rising at an (upwardly revised) annual rate of 3.1% in the third quarter of 2024, and inflation remains elevated suggesting that monetary policy may need to remain more restrictive in the coming months than had previously been anticipated.
- 2.10 Euro zone inflation rose above the European Central Bank (ECB) 2% target in November 2024, hitting 2.2% as was widely expected and a further increase from 2% in the previous month. Despite the rise, the ECB continued its rate cutting cycle and reduced its three key policy rates by 0.25% in December. Inflation is expected to rise further in the short term, but then fall back towards the 2% target during 2025, with the ECB remaining committed to maintaining rates at levels consistent with bringing inflation to target, but without suggesting a specific path.

Credit outlook:

- 2.11 Credit Default Swap (CDS) prices have typically followed a general trend downwards during 2024, reflecting a relatively more stable financial period compared to the previous year. Improved credit conditions in 2024 have also led to greater convergence in CDS prices between ringfenced (retail) and non-ringfenced (investment) banking entities again.
- 2.12 Higher interest rates can lead to a deterioration in banks' asset quality through increased loan defaults and volatility in the value of capital investments. Fortunately, the rapid interest rate hikes during this monetary tightening cycle, while putting some strain on households and corporate borrowers, has not caused a rise in defaults, and banks have fared better than expected

to date, buoyed by strong capital positions. Low unemployment and robust wage growth have also limited the number of problem loans, all of which are positive in terms of creditworthiness.

- 2.13 Moreover, while a potential easing of US financial regulations under a Donald Trump Presidency may aid their banks' competitiveness compared to institutions in the UK and other regions, it is unlikely there will be any material impact on the underlying creditworthiness of the institutions on the counterparty list maintained by Arlingclose, the authority's treasury adviser.
- 2.14 Overall, the institutions on our adviser Arlingclose's counterparty list remain well-capitalised and their counterparty advice on both recommended institutions and maximum duration remain under constant review and will continue to reflect economic conditions and the credit outlook.

Interest rate forecast (December 2024):

- 2.15 The Authority's treasury management adviser Arlingclose expects the Bank of England's MPC will continue reducing Bank Rate through 2025, taking it to around 3.75% by the end of the 2025/26 financial year. The effect from the Autumn Budget on economic growth and inflation has reduced previous expectations in terms of the pace of rate cuts as well as pushing up the rate at the end of the loosening cycle.
- 2.16 Arlingclose expects long-term gilt yields to remain broadly at current levels on average (amid continued volatility), but to end the forecast period modestly lower compared to now. Yields will continue remain relatively higher than in the past, due to quantitative tightening and significant bond supply. As ever, there will be short-term volatility due to economic and (geo)political uncertainty and events.
- 2.17 A more detailed economic and interest rate forecast provided by Arlingclose is in Appendix A.
- 2.18 For the purpose of setting the budget, it has been assumed that new treasury investments will be made at an average rate/yield of 4.6%, and that new long-term loans will be borrowed at an average rate of 5.2%.

Local Context

- 2.19 On 28th January 2025, the Authority had no borrowing and £14.5m of treasury investments. This is set out in further detail at **Appendix B**. Forecast changes in these sums are shown in the balance sheet analysis in table 1 below.

BROMSGROVE DISTRICT COUNCIL

CABINET

19th February 2025

Table 1: Balance sheet summary and forecast

	31.3.24 Actual £m	31.3.25 Estimate £m	31.3.26 Forecast £m	31.3.27 Forecast £m	31.3.28 Forecast £m
Capital financing requirement	38.6	42.7	45.4	47.7	49.2

Less: Working Capital	-3.1	-3.1	-3.1	-3.1	-3.1
Treasury investments	-18.1	-22.4	-25.2	-27.5	-29.0

** shows only loans to which the Authority is committed and excludes optional refinancing

- 2.20 The underlying need to borrow for capital purposes is measured by the Capital Financing Requirement (CFR), while balance sheet resources are the underlying sums available for investment. The Authority's current strategy is to maintain borrowing and investments below their underlying levels, sometimes known as internal borrowing.
- 2.21 The Authority has an increasing CFR due to the capital programme, but minimal investments but will be funding the programme through internal borrowing.
- 2.22 CIPFA's *Prudential Code for Capital Finance in Local Authorities* recommends that the Authority's total debt should be lower than its highest forecast CFR over the next three years. Table 1 shows that the Authority expects to comply with this recommendation during 2025/26.
- 2.23 **Liability benchmark:** To compare the Council's actual borrowing against an alternative strategy, a liability benchmark has been calculated showing the lowest risk level of borrowing. This assumes the same forecasts as table 1 above, but that cash and investment balances are kept to a minimum level of £0.2m at each year-end to maintain sufficient liquidity but minimise credit risk.
- 2.24 The liability benchmark is an important tool to help establish whether the Council is likely to be a long-term borrower or long-term investor in the future, and so shape its strategic focus and decision making. The liability benchmark itself represents an estimate of the cumulative amount of external borrowing the Council must hold to fund its current capital and revenue plans while keeping treasury investments at the minimum level required to manage day-to-day cash flow.

Plus: Liquidity allowance	0.2	0.2	0.2	0.2	0.2
Liability benchmark	18.3	22.6	25.4	27.7	29.2

- 2.25 Following on from the medium-term forecasts in table 2 above, the long-term liability benchmark assumes capital expenditure funded by borrowing of £2m average a year, minimum revenue provision on new capital expenditure based on a 25 year asset life and income, expenditure and reserves all increasing by inflation of 2.5% a year.

Borrowing Strategy

- 2.26 The Authority currently holds £0 million of loans, as part of its strategy for funding previous years' capital programmes. The balance sheet forecast in table 1 shows that the Authority expects to borrow up to £0m in 2025/26. The Authority may however borrow to pre-fund future years' requirements, providing this does not exceed the authorised limit for borrowing of £60 million.
- 2.27 **Objectives:** The Authority's chief objective when borrowing money is to strike an appropriately low risk balance between securing low interest costs and achieving certainty of those costs over the period for which funds are required. The flexibility to renegotiate loans should the Authority's long-term plans change is a secondary objective.
- 2.28 **Strategy:** Given the significant cuts to public expenditure and in particular to local government funding, the Authority's borrowing strategy continues to address the key issue of affordability without compromising the longer-term stability of the debt portfolio. Short-term interest rates are currently higher than in the recent past but are expected to fall in the coming year and it is therefore likely to be more cost effective over the medium-term to either use internal resources, or to borrow short-term loans instead. The risks of this approach will be managed by keeping the Authority's interest rate exposure within the limit set in the treasury management prudential indicators, see below.

- 2.29 By doing so, the Authority is able to reduce net borrowing costs (despite foregone investment income) and reduce overall treasury risk. The benefits of [internal / short-term] borrowing will be monitored regularly against the potential for incurring additional costs by deferring borrowing into future years when long-term borrowing rates are forecast to rise modestly. Arlingclose will assist the Authority with this 'cost of carry' and breakeven analysis. Its output may determine whether the Authority borrows additional sums at long-term fixed rates in 2025/26 with a view to keeping future interest costs low, even if this causes additional cost in the short-term.
- 2.30 The Authority has previously raised the majority of its long-term borrowing from the PWLB but will consider long-term loans from other sources including banks, pensions and local authorities, and will investigate the possibility of issuing bonds and similar instruments, in order to lower interest costs and reduce over-reliance on one source of funding in line with the CIPFA Code. PWLB loans are no longer available to local authorities planning to buy investment assets primarily for yield; the Authority intends to avoid this activity in order to retain its access to PWLB loans.
- 2.31 In addition, the Authority may borrow short-term loans to cover unplanned cash flow shortages.
- 2.32 **Sources of borrowing:** The approved sources of long-term and short-term borrowing are:
- HM Treasury's PWLB lending facility (formerly the Public Works Loan Board)
 - National Wealth Fund Ltd (formerly known as UK Infrastructure Bank Ltd)
 - any institution approved for investments (see below)
 - any other bank or building society authorised to operate in the UK
 - any other UK public sector body
 - UK public and private sector pension funds (except Local Government Pension Scheme)
 - capital market bond investors
 - UK Municipal Bonds Agency plc and other special purpose companies created to enable local authority bond issues
- 2.33 **Other sources of debt finance:** In addition, capital finance may be raised by the following methods that are not borrowing, but may be classed as other debt liabilities:
- leasing
 - hire purchase

- Private Finance Initiative
- sale and leaseback

- 2.34 **Municipal Bonds Agency:** UK Municipal Bonds Agency plc was established in 2014 by the Local Government Association as an alternative to the PWLB. It issues bonds on the capital markets and lends the proceeds to local authorities. This is a more complicated source of finance than the PWLB for two reasons: borrowing authorities will be required to provide bond investors with a guarantee to refund their investment in the event that the agency is unable to for any reason; and there will be a lead time of several months between committing to borrow and knowing the interest rate payable. Any decision to borrow from the Agency will therefore be the subject of a separate report to full Council.
- 2.35 **Short-term and variable rate loans:** These loans leave the Authority exposed to the risk of short-term interest rate rises and are therefore subject to the interest rate exposure limits in the treasury management indicators below. Financial derivatives may be used to manage this interest rate risk (see section below).
- 2.36 **Debt rescheduling:** The PWLB allows authorities to repay loans before maturity and either pay a premium or receive a discount according to a set formula based on current interest rates. Other lenders may also be prepared to negotiate premature redemption terms. The Authority may take advantage of this and replace some loans with new loans, or repay loans without replacement, where this is expected to lead to an overall cost saving or a reduction in risk. The recent rise in interest rates means that more favourable debt rescheduling opportunities should arise than in previous years.

Treasury Investment Strategy

- 2.37 The Authority holds significant invested funds, representing income received in advance of expenditure plus balances and reserves held. In the past 12 months, the Authority's treasury investment balance has ranged between £1 and £14.5 million, and similar levels are expected to be maintained in the forthcoming year.
- 2.38 **Objectives:** The CIPFA Code requires the Authority to invest its treasury funds prudently, and to have regard to the security and liquidity of its investments before seeking the highest rate of return, or yield. The Authority's objective when investing money is to strike an appropriate balance between risk and return, minimising the risk of incurring losses from defaults and the risk of receiving unsuitably low investment income. Where balances are expected to be invested for more than one year, the Authority will aim to achieve a total return that is equal or higher than the prevailing rate of inflation, in order to maintain the spending power of the sum invested. The Authority aims to be a responsible investor and will consider environmental, social and governance (ESG) issues when investing.

- 2.39 **Strategy:** As demonstrated by the liability benchmark above, the Authority expects to be a long-term investor and treasury investments will therefore include both short-term low risk instruments to manage day-to-day cash flows and longer-term instruments where limited additional risk is accepted in return for higher investment income to support local public services.
- 2.40 The CIPFA Code does not permit local authorities to both borrow and invest long-term for cash flow management. But the Authority may make long-term investments for treasury risk management purposes, including to manage interest rate risk by investing sums borrowed in advance for the capital programme for up to three years; to manage inflation risk by investing usable reserves in instruments whose value rises with inflation; and to manage price risk by adding diversification to the strategic pooled fund portfolio.
- 2.41 **ESG policy:** Environmental, social and governance (ESG) considerations are increasingly a factor in global investors' decision making, but the framework for evaluating investment opportunities is still developing and therefore the Authority's ESG policy does not currently include ESG scoring or other real-time ESG criteria at an individual investment level. When investing in banks and funds, the Authority will prioritise banks that are signatories to the UN Principles for Responsible Banking and funds operated by managers that are signatories to the UN Principles for Responsible Investment, the Net Zero Asset Managers Alliance and/or the UK Stewardship Code.
- 2.42 **Business models:** Under the IFRS 9 standard, the accounting for certain investments depends on the Authority's "business model" for managing them. The Authority aims to achieve value from its treasury investments by a business model of collecting the contractual cash flows and therefore, where other criteria are also met, these investments will continue to be accounted for at amortised cost.
- 2.43 **Approved counterparties:** The Authority may invest its surplus funds with any of the counterparty types in table 3 below, subject to the limits shown.

BROMSGROVE DISTRICT COUNCIL

CABINET

19th February 2025

Table 3: Treasury investment counterparties and limits

Credit rating	Banks unsecured	Banks secured	Government	Corporates	Registered Providers
UK Govt	n/a	n/a	£ Unlimited 50 years	n/a	n/a
AAA	£3 m 5 years	£3m 20 years	£3m 50 years	£3m 20 years	£1m 20 years
AA+	£3m 5 years	£3m 10 years	£3m 25 years	£3m 10 years	£1m 10 years
AA	£3m 4 years	£3m 5 years	£3m 15 years	£3m 5 years	£1m 10 years
AA-	£3m 3 years	£3m 4 years	£3m 10 years	£3m 4 years	£1m 10 years
A+	£3m 2 years	£3m 3 years	£3m 5 years	£3m 3 years	£1m 5 years
A	£3m 13 months	£3m 2 years	£3m 5 years	£3m 2 years	£1m 5 years
A-	£3m 6 months	£3m 13 months	£3m 5 years	£3m 13 months	£1m 5 years
None	£1.5m 6 months	n/a	£3m 25 years	£1m 5 years	£500k 5 years
Pooled funds and real estate investment trusts		£2.5m per fund or trust			

- 2.44 **Minimum credit rating:** Treasury investments in the sectors marked with an asterisk will only be made with entities whose lowest published long-term credit rating is no lower than [A-]. Where available, the credit rating relevant to the specific investment or class of investment is used, otherwise the counterparty credit rating is used. However, investment decisions are never made solely based on credit ratings, and all other relevant factors including external advice will be taken into account.
- 2.45 For entities without published credit ratings, investments may be made either (a) where external advice indicates the entity to be of similar credit quality; or (b) to a maximum of £500,000 per counterparty as part of a diversified pool e.g. via a peer-to-peer platform.

- 2.46 **Government:** Loans to, and bonds and bills issued or guaranteed by, national governments, regional and local authorities and multilateral development banks. These investments are not subject to bail-in, and there is generally a lower risk of insolvency, although they are not zero risk. Investments with the UK Government are deemed to be zero credit risk due to its ability to create additional currency and therefore may be made in unlimited amounts for up to 50 years.
- 2.47 **Secured investments:** Investments secured on the borrower's assets, which limits the potential losses in the event of insolvency. The amount and quality of the security will be a key factor in the investment decision. Covered bonds and reverse repurchase agreements with banks and building societies are exempt from bail-in. Where there is no investment specific credit rating, but the collateral upon which the investment is secured has a credit rating, the higher of the collateral credit rating and the counterparty credit rating will be used. The combined secured and unsecured investments with any one counterparty will not exceed the cash limit for secured investments.
- 2.48 **Banks and building societies (unsecured):** Accounts, deposits, certificates of deposit and senior unsecured bonds with banks and building societies, other than multilateral development banks. These investments are subject to the risk of credit loss via a bail-in should the regulator determine that the bank is failing or likely to fail. See below for arrangements relating to operational bank accounts.
- 2.49 **Registered providers (unsecured):** Loans to, and bonds issued or guaranteed by, registered providers of social housing or registered social landlords, formerly known as housing associations. These bodies are regulated by the Regulator of Social Housing (in England), the Scottish Housing Regulator, the Welsh Government and the Department for Communities (in Northern Ireland). As providers of public services, they retain the likelihood of receiving government support if needed.
- 2.50 **Money market funds:** Pooled funds that offer same-day or short notice liquidity and very low or no price volatility by investing in short-term money markets. They have the advantage over bank accounts of providing wide diversification of investment risks, coupled with the services of a professional fund manager in return for a small fee. Although no sector limit applies to money market funds, the Authority will take care to diversify its liquid investments over a variety of providers to ensure access to cash at all times.
- 2.51 **Strategic pooled funds:** Bond, equity and property funds, including exchange traded funds, that offer enhanced returns over the longer term but are more volatile in the short term. These allow the Authority to diversify into asset classes other than cash without the need to own and manage the underlying investments. Because these funds have no defined maturity date but can be either withdrawn after a notice period or sold on an exchange, their performance and continued suitability in meeting the Authority's investment objectives will be monitored regularly.
- 2.52 **Real estate investment trusts:** Shares in companies that invest mainly in real estate and pay the majority of their rental income to investors in a similar manner to pooled property funds. As with property funds, REITs offer enhanced returns over

the longer term but are more volatile especially as the share price reflects changing demand for the shares as well as changes in the value of the underlying properties.

- 2.53 **Other investments:** This category covers treasury investments not listed above, for example unsecured corporate bonds and unsecured loans to companies and universities. Non-bank companies cannot be bailed-in but can become insolvent placing the Authority's investment at risk.
- 2.54 **Operational bank accounts:** The Authority may incur operational exposures, for example through current accounts, collection accounts and merchant acquiring services, to any UK bank with credit ratings no lower than BBB- and with assets greater than £25 billion. These are not classed as investments but are still subject to the risk of a bank bail-in, and balances will therefore be kept below £2.0m per bank. The Bank of England has stated that in the event of failure, banks with assets greater than £25 billion are more likely to be bailed-in than made insolvent, increasing the chance of the Authority maintaining operational continuity.
- 2.55 **Risk assessment and credit ratings:** Credit ratings are obtained and monitored by the Authority's treasury advisers, who will notify changes in ratings as they occur. The credit rating agencies in current use are listed in the Treasury Management Practices document. Where an entity has its credit rating downgraded so that it fails to meet the approved investment criteria then:
- no new investments will be made,
 - any existing investments that can be recalled or sold at no cost will be, and
 - full consideration will be given to the recall or sale of all other existing investments with the affected counterparty.

Where a credit rating agency announces that a credit rating is on review for possible downgrade (also known as "negative watch") so that it may fall below the approved rating criteria, then only investments that can be withdrawn on the next working day will be made with that organisation until the outcome of the review is announced. This policy will not apply to negative outlooks, which indicate a long-term direction of travel rather than an imminent change of rating.

- 2.56 **Other information on the security of investments:** The Authority understands that credit ratings are good, but not perfect, predictors of investment default. Full regard will therefore be given to other available information on the credit quality of the organisations in which it invests, including credit default swap prices, financial statements, information on potential government support, reports in the quality financial press and analysis and advice from the Authority's treasury management adviser. No

investments will be made with an organisation if there are substantive doubts about its credit quality, even though it may otherwise meet the above criteria.

- 2.57 When deteriorating financial market conditions affect the creditworthiness of all organisations, as happened in 2008, 2020 and 2022, this is not generally reflected in credit ratings, but can be seen in other market measures. In these circumstances, the Authority will restrict its investments to those organisations of higher credit quality and reduce the maximum duration of its investments to maintain the required level of security. The extent of these restrictions will be in line with prevailing financial market conditions. If these restrictions mean that insufficient commercial organisations of high credit quality are available to invest the Authority's cash balances, then the surplus will be deposited with the UK Government, or with other local authorities. This will cause investment returns to fall but will protect the principal sum invested.
- 2.58 **Investment limits:** The Authority's revenue reserves available to cover investment losses are forecast to be £10.867 million on 31st March 2025 and £10.789 million on 31st March 2026. In order that no more than 42% of available reserves will be put at risk in the case of a single default, the maximum that will be lent to any one organisation (other than the UK Government) will be £5 million. A group of entities under the same ownership will be treated as a single organisation for limit purposes.
- 2.59 Credit risk exposures arising from non-treasury investments, financial derivatives and balances greater than £2m in operational bank accounts count against the relevant investment limits.
- 2.60 Limits are also placed on fund managers, investments in brokers' nominee accounts and foreign countries as below. Investments in pooled funds and multilateral development banks do not count against the limit for any single foreign country, since the risk is diversified over many countries.

BROMSGROVE DISTRICT COUNCIL

CABINET

19th February 2025

	Cash limit
Any single organisation, except the UK Central Government	£5m each
UK Central Government	Unlimited
Any group of organisations under the same ownership	£5m per group
Any group of pooled funds under the same management	£5m per manager
Negotiable instruments held in a broker's nominee account	£5m per broker
Foreign countries	£5m per country
Registered providers and registered social landlords	£2.5m in total
Unsecured investments with building societies	£2.5m in total
Loans to unrated corporates	£1m in total
Money market funds	£20m in total
Real estate investment trusts	£2.5m in total

- 2.61 **Liquidity management:** The Authority uses detailed spreadsheets to determine the maximum period for which funds may prudently be committed. The forecast is compiled on a prudent basis to minimise the risk of the Authority being forced to borrow on unfavourable terms to meet its financial commitments. Limits on long-term investments are set by reference to the Authority's medium-term financial plan and cash flow forecast.
- 2.62 The Authority will spread its liquid cash over at least four providers (e.g. bank accounts and money market funds) to ensure that access to cash is maintained in the event of operational difficulties at any one provider.

Treasury Management Prudential Indicators

- 2.63 The Authority measures and manages its exposures to treasury management risks using the following indicators.
- 2.64 **Security:** The Authority has adopted a voluntary measure of its exposure to credit risk by monitoring the value-weighted average of its investment portfolio. This is calculated by applying a score to each investment (AAA=1, AA+=2, etc.) and taking the arithmetic average, weighted by the size of each investment. Unrated investments are assigned a score based on their perceived risk.

BROMSGROVE DISTRICT COUNCIL

CABINET

19th February 2025

Credit risk indicator	Target
Portfolio average credit [rating / score]	A-

- 2.65 **Liquidity:** The Authority has adopted a voluntary measure of its exposure to liquidity risk by monitoring the amount of cash available to meet unexpected payments within a rolling three month period, without additional borrowing.

Liquidity risk indicator	Target
Total cash available within 3 months	£2.5m

- 2.66 **Interest rate exposures:** This indicator is set to control the Authority's exposure to interest rate risk. The upper limits on the one-year revenue impact of a 1% rise or fall in interest rates will be:

Interest rate risk indicator	Limit
Upper limit on one-year revenue impact of a 1% <u>rise</u> in interest rates	£500,000
Upper limit on one-year revenue impact of a 1% <u>fall</u> in interest rates	£500,000

- 2.67 The impact of a change in interest rates is calculated on the assumption that maturing loans and investments will be replaced at new market rates.

- 2.68 **Maturity structure of borrowing:** This indicator is set to control the Authority's exposure to refinancing risk. The upper and lower limits on the maturity structure of borrowing will be:

Refinancing rate risk indicator	Upper limit	Lower limit
Under 12 months	50%	0%
12 months and within 24 months	50%	0%
24 months and within 5 years	50%	0%
5 years and within 10 years	50%	0%
10 years and above	100%	0%

2.69 Time periods start on the first day of each financial year. The maturity date of borrowing is the earliest date on which the lender can demand repayment

2.70 **Long-term treasury management investments:** The purpose of this indicator is to control the Authority's exposure to the risk of incurring losses by seeking early repayment of its investments. The prudential limits on the long-term treasury management investments will be:

Price risk indicator	2025/26	2026/27	2027/27	No fixed date
Limit on principal invested beyond year end	£1.0m	£0.5m	£0m	£0m

2.71 Long-term investments with no fixed maturity date include strategic pooled funds and real estate investment trusts but exclude money market funds and bank accounts with no fixed maturity date as these are considered short-term.

Related Matters

2.72 The CIPFA Code requires the Authority to include the following in its treasury management strategy.

2.73 **Financial derivatives:** Local authorities have previously made use of financial derivatives embedded into loans and investments both to reduce interest rate risk (e.g. interest rate collars and forward deals) and to reduce costs or increase income at the expense of greater risk (e.g. LOBO loans and callable deposits). The general power of competence in section 1 of the *Localism Act 2011* removes much of the uncertainty over local authorities' use of standalone financial derivatives (i.e. those that are not embedded into a loan or investment).

2.74 The Authority will only use standalone financial derivatives (such as swaps, forwards, futures and options) where they can be clearly demonstrated to reduce the overall level of the financial risks that the Authority is exposed to. Additional risks presented, such as credit exposure to derivative counterparties, will be taken into account when determining the overall level of risk. Embedded derivatives, including those present in pooled funds and forward starting transactions, will not be subject to this policy, although the risks they present will be managed in line with the overall treasury risk management strategy.

2.75 Financial derivative transactions may be arranged with any organisation that meets the approved investment criteria, assessed using the appropriate credit rating for derivative exposures. An allowance for credit risk calculated using the methodology in the Treasury Management Practices document will count against the counterparty credit limit and the relevant foreign country limit.

- 2.76 In line with the CIPFA Code, the Authority will seek external advice and will consider that advice before entering into financial derivatives to ensure that it fully understands the implications.
- 2.77 **Markets in Financial Instruments Directive:** The Authority has retained retail client status with its providers of financial services, including advisers, banks, brokers and fund managers, allowing it access to a smaller range of services but with the greater regulatory protections afforded to individuals and small companies. Given the size and range of the Authority's treasury management activities, the Director of Finance believes this to be the most appropriate status.

Financial Implications

- 2.78 The budget for investment income in 2025/26 is £203.6k based on an average investment portfolio of £4.5 million at an interest rate of 4.6%. If actual levels of investments and borrowing, or actual interest rates, differ from those forecast, performance against budget will be correspondingly different.
- 2.79 Where investment income exceeds budget, e.g. from higher risk investments including pooled funds, or debt interest paid falls below budget, e.g. from cheap short-term borrowing, then 50% of the revenue savings will be transferred to a treasury management reserve to cover the risk of capital losses or higher interest rates payable in future years.

Other Options Considered

- 2.80 The CIPFA Code does not prescribe any particular treasury management strategy for local authorities to adopt. The Director of Finance, having consulted the Cabinet Member for Finance and Enabling, believes that the above strategy represents an appropriate balance between risk management and cost effectiveness. Some alternative strategies, with their financial and risk management implications, are listed below.

BROMSGROVE DISTRICT COUNCIL

CABINET

19th February 2025

Alternative	Impact on income and expenditure	Impact on risk management
Invest in a narrower range of counterparties and/or for shorter times	Interest income will be lower	Lower chance of losses from credit related defaults, but any such losses may be greater
Invest in a wider range of counterparties and/or for longer times	Interest income will be higher	Increased risk of losses from credit related defaults, but any such losses may be smaller
Borrow additional sums at long-term fixed interest rates	Debt interest costs will rise; this is unlikely to be offset by higher investment income	Higher investment balance leading to a higher impact in the event of a default; however long-term interest costs may be more certain
Borrow short-term or variable loans instead of long-term fixed rates	Debt interest costs will initially be lower	Increases in debt interest costs will be broadly offset by rising investment income in the medium term, but long-term costs may be less certain
Reduce level of borrowing	Saving on debt interest is likely to exceed lost investment income	Reduced investment balance leading to a lower impact in the event of a default; however long-term interest costs may be less certain

Appendix A – Arlingclose Economic & Interest Rate Forecast – December 2024

Underlying assumptions:

- As expected, the Monetary Policy Committee (MPC) held Bank Rate at 4.75% in December, although, with a 6-3 voting split and obvious concerns about economic growth, presented a much more dovish stance than had been expected given recent inflationary data.
- The Budget measures remain a concern for policymakers, for both growth and inflation. Additional government spending will boost demand in a constrained supply environment, while pushing up direct costs for employers. The short to medium-term inflationary effects will promote caution amongst policymakers.
- UK GDP recovered well in H1 2024 from technical recession, but underlying growth has petered out as the year has progressed. While government spending should boost GDP growth in 2025, private sector activity appears to be waning, partly due to Budget measures.
- Private sector wage growth and services inflation remain elevated; wage growth picked up sharply in October. The increase in employers' NICs, minimum and public sector wage levels could have wide ranging impacts on private sector employment demand and costs, but the near-term impact will likely be inflationary as these additional costs get passed to consumers.
- CPI inflation rates have risen due to higher energy prices and less favourable base effects. The current CPI rate of 2.6% could rise further in Q1 2025. The Bank of England (BoE) estimates the CPI rate at 2.7% by year end 2025 and to remain over target in 2026.
- The MPC re-emphasised that monetary policy will be eased gradually. Despite recent inflation-related data moving upwards or surprising to the upside, the minutes suggested a significant minority of policymakers are at least as worried about the flatlining UK economy.
- US government bond yields have risen following strong US data and uncertainty about the effects of Donald Trump's policies on the US economy, particularly in terms of inflation and monetary policy. The Federal Reserve pared back its expectations for rate cuts in light of these issues. Higher US yields are also pushing up UK gilt yields, a relationship that will be maintained unless monetary policy in the UK and US diverges.

Forecast:

- In line with our forecast, Bank Rate was held at 4.75% in December.
- The MPC will reduce Bank Rate in a gradual manner. We see a rate cut in February 2025, followed by a cut alongside every Monetary Policy Report publication, to a low of 3.75%.
- Long-term gilt yields have risen to reflect both UK and US economic, monetary and fiscal policy expectations, and increases in bond supply. Volatility will remain elevated as the market digests incoming data for clues around the impact of policy changes.
- This uncertainty may also necessitate more frequent changes to our forecast than has been the case recently.
- The risks around the forecasts lie to the upside over the next 12 months but are broadly balanced in the medium term.

Appendix H – MRP Statement

- 3.1 Where the Authority finances capital expenditure by debt, it must put aside resources to repay that debt in later years. The amount charged to the revenue budget for the repayment of debt is known as Minimum Revenue Provision (MRP), although there has been no statutory minimum since 2008. The *Local Government Act 2003* requires the Authority to have regard to the former Ministry of Housing, Communities and Local Government's *Guidance on Minimum Revenue Provision* (the MHCLG Guidance) most recently issued in April 2024.
- 3.2 The broad aim of the MHCLG Guidance is to ensure that capital expenditure is financed over a period that is reasonably commensurate with that over which the capital expenditure provides benefits.
- 3.3 The MHCLG Guidance requires the Authority to approve an Annual MRP Statement each year and provides a number of options for calculating a prudent amount of MRP, but does not preclude the use of other appropriate methods. The following statement incorporates options recommended in the Guidance as well as locally determined prudent methods.
- 3.4 MRP is calculated by reference to the capital financing requirement (CFR) which is the total amount of past capital expenditure that has yet to be permanently financed, noting that debt must be repaid and therefore can only be a temporary form of funding. The CFR is calculated from the Authority's balance sheet in accordance with the Chartered Institute of Public Finance and Accountancy's *Prudential Code for Capital Expenditure in Local Authorities*, 2021 edition.
- For unsupported capital expenditure incurred after 31st March 2008, MRP will be determined by charging the expenditure over the expected useful life of the relevant asset as the principal repayment on an annuity with an annual interest rate of 4%, starting in the year after the asset becomes operational. MRP on purchases of freehold land will be charged over 50 years. MRP on expenditure not related to fixed assets but which has been capitalised by regulation or direction will be charged over 20 years.
 - For assets acquired by leases, MRP will be determined as being equal to the element of the rent or charge that goes to write down the balance sheet liability.
 - Where former operating leases have been brought onto the balance sheet due to the adoption of the *IFRS 16 Leases* accounting standard, and the asset values have been adjusted for accruals, prepayments, premiums and/or incentives, then the annual MRP charges will be adjusted so that the total charge to revenue remains unaffected by the new standard.

- For capital expenditure on loans to third parties that are repaid in annual or more frequent instalments of principal, the Council will make nil MRP, but will instead apply the capital receipts arising from principal repayments to reduce the capital financing requirement instead. In years where there is no principal repayment, MRP will be charged in accordance with the MRP policy for the assets funded by the loan, including where appropriate, delaying MRP until the year after the assets become operational. While this is not one of the options in the MHCLG Guidance, it is thought to be a prudent approach since it ensures that the capital expenditure incurred on the loan is fully funded over the life of the assets.
- There is no requirement to charge MRP where the Capital Financing Requirement (CFR) is nil or negative at the end of the preceding financial year.
- Where the council makes a capital contribution or loan to another entity or where responsibility for a council asset with borrowing attached is transferred to a third party, then no MRP will be set aside if:
 - the payments are appropriately covered by assets
 - there are detailed plans demonstrating that all the expenditure will be recovered in an appropriately short time frame
- To ensure that this remains a prudent approach the Council will review the expenditure and income regularly to determine if the income or asset values have decreased to the point that MRP needs to be provided for. Should evidence emerge which suggests the expenditure will no longer be recovered, MRP will be provided for.
- Where the council uses internal borrowing and receipts of rental income are greater than the MRP calculated then as there are sufficient revenues to repay the capital cost, no MRP will be set aside.

3.5 Capital loans

- For capital expenditure on loans to third parties which were made primarily for financial return rather than direct service purposes, MRP will be charged in accordance with the policy for the assets funded by the loan, including where appropriate, delaying MRP until the year after the assets become operational. This MRP charge will be reduced by the value any repayments of loan principal received during in the year, with the capital receipts so arising applied to finance the expenditure instead.

- For capital expenditure on loans to third parties which were made primarily for service purposes, the Authority will make nil MRP except as detailed below for expected credit losses. Instead, the Authority will apply the capital receipts arising from the repayments of the loan principal to finance the expenditure in the year they are received.
- For capital loans made on or after 7th May 2024 where an expected credit loss is recognised during the year, the MRP charge in respect of the loan will be no lower than the loss recognised. Where expected credit losses are reversed, for example on the eventual repayment of the loan, this will be treated as an overpayment.
- For capital loans made before 7th May 2024 and for loans where expected credit losses are not applicable, where a shortfall in capital receipts is anticipated, MRP will be charged to cover that shortfall over the remaining life of the assets funded by the loan.

3.6 Capital expenditure incurred during 2024/25 will not be subject to a MRP charge until 2025/26 or later.

3.7 Based on the Authority's latest estimate of its capital financing requirement (CFR) on 31st March 2025, the budget for MRP has been set as follows:

	31.03.2025 Estimated CFR	2025/26 Estimated MRP
	£m	£m
Capital expenditure before 01.04.2008		
Supported capital expenditure after 31.03.2008		
Unsupported capital expenditure after 31.03.2008	42.7	1.31
Leases and Private Finance Initiative		
Transferred debt		
Loans to other bodies repaid in instalments		
Voluntary overpayment (or use of prior year overpayments)		
Total General Fund	42.7	1.31

3.8 Capital receipts

Proceeds from the sale of capital assets are classed as capital receipts, and are typically used to finance new capital expenditure. Where the Authority decides instead to use capital receipts to repay debt and hence reduce the CFR, the calculation of MRP will be adjusted as follows:

- Capital receipts arising on the repayment of principal on capital loans to third parties will be used to lower the MRP charge in respect of the same loans in the year of receipt, if any.
- Capital receipts arising on the repayment of principal on finance lease receivables will be used to lower the MRP charge in respect of the acquisition of the asset subject to the lease in the year of receipt, if any.

- Capital receipts arising from other assets which form an identified part of the Authority's MRP calculations will be used to reduce the MRP charge in respect of the same assets over their remaining useful lives, starting in the year after the receipt is applied.

Any other capital receipts applied to repay debt will be used to reduce MRP in 10 equal instalments starting in the year after receipt is applied.

This page is intentionally left blank

Appendix I – Investment Strategy

Introduction

- 4.1 The Authority invests its money for three broad purposes:
- because it has surplus cash as a result of its day-to-day activities, for example when income is received in advance of expenditure (known as **treasury management investments**),
 - to support local public services by lending to or buying shares in other organisations (**service investments**), and
 - to earn investment income (known as **commercial investments** where this is the main purpose).
- 4.2 This investment strategy meets the requirements of statutory guidance issued by the government in January 2018 and focuses on the second and third of these categories.
- 4.3 The statutory guidance defines investments as “all of the financial assets of a local authority as well as other non-financial assets that the organisation holds primarily or partially to generate a profit; for example, investment property portfolios.” The Authority interprets this to exclude (a) trade receivables which meet the accounting definition of financial assets but are not investments in the everyday sense of the word and (b) property held partially to generate a profit but primarily for the provision of local public services. This aligns the Authority’s definition of an investment with that in the 2021 edition of the CIPFA Prudential Code, a more recent piece of statutory guidance.

Treasury Management Investments

- 4.4 The Authority typically receives its income in cash (e.g. from taxes and grants) before it pays for its expenditure in cash (e.g. through payroll and invoices). It also holds reserves for future expenditure and collects local taxes on behalf of other local authorities and central government. These activities, plus the timing of borrowing decisions, lead to a cash surplus which is invested in accordance with guidance from the Chartered Institute of Public Finance and Accountancy. The balance of treasury management investments is expected to fluctuate between £1m and £14m during the 2025/26 financial year.

BROMSGROVE DISTRICT COUNCIL

CABINET

19th February 2025

- 4.5 **Contribution:** The contribution that these investments make to the objectives of the Authority is to support effective treasury management activities.
- 4.6 **Further details:** Full details of the Authority's policies and its plan for 2025/26 for treasury management investments are covered in a separate document, the treasury management strategy, which is part of these appendices.

Service Investments: Loans

- 4.7 **Contribution:** The Council will lend money to its subsidiaries, local businesses, local charities and housing associations to support local public services and stimulate local economic growth.
- 4.8 **Security:** The main risk when making service loans is that the borrower will be unable to repay the principal lent and/or the interest due. In order to limit this risk, and ensure that total exposure to service loans remains proportionate to the size of the Authority, upper limits on the outstanding loans to each category of borrower have been set as follows:

Table 1: Loans for service purposes in £ millions

Category of borrower	31.3.2024 actual			2025/26
	Balance owing	Loss allowance	Net figure in accounts	Approved Limit £m
Subsidiaries	0	0	0	1.0
Local businesses	0	0	0	0.5
Local charities	0	0	0	0.5
Housing associations	0	0	0	1.0
TOTAL	0	0	0	3.0

CABINET

- 4.9 Accounting standards require the Authority to set aside loss allowance for loans, reflecting the likelihood of non-payment. The figures for loans in the Authority’s statement of accounts are shown net of this loss allowance. However, the Authority makes every reasonable effort to collect the full sum lent and has appropriate credit control arrangements in place to recover overdue repayments.
- 4.10 **Risk assessment:** The Authority assesses the risk of loss before entering into and whilst holding service loans by using specialist advice to understand the market and the potential future demands of the market and the customers in it. It will also use benchmarking data from the market to determine future potential risks which need to be planned for. External advice is only sought from credible sources eg acknowledged experts in their fields and officers ensure that they fully understand any information given to them before decision or advice is taken.

Commercial Investments: Property

- 4.11 **Contribution:** The Authority invests via Regeneration schemes such as Levelling Up Fundings via the Government in property with the intention of making a profit that will be spent on local public services. Levelling Up funding in being invested in regenerating the Market Hall site and clearing the existing Fire Station site for future regeneration.

Table 2: Property held for investment purposes in £ millions

Property [type]	Actual	31.3.2024 actual		31.3.2025 expected	
	Purchase cost	Gains or (losses)	Value in accounts	Gains or (losses)	Value in accounts
N/A	0	0	0	0	0
TOTAL	0	0	0	0	0

- 4.12 **Security:** In accordance with government guidance, the Authority considers a property investment to be secure if its accounting valuation is at or higher than its purchase cost including taxes and transaction costs.

CABINET

- 4.13 *Where value in accounts is at or above purchase cost:* A fair value assessment of the Authority's investment property portfolio has been made within the past twelve months, and the underlying assets provide security for capital investment. Should the 2024/25 year end accounts preparation and audit process value these properties below their purchase cost, then an updated investment strategy will be presented to full Council detailing the impact of the loss on the security of investments and any revenue consequences arising therefrom.
- 4.14 *Where value in accounts is below purchase cost:* The fair value of the Authority's investment property portfolio is no longer sufficient to provide security against loss, and the Authority is therefore taking mitigating actions to protect the capital invested.
- 4.15 **Risk assessment:** The Authority assesses the risk of loss before entering into and whilst holding property investments by involving specialist advisors with expertise in the type of property being purchased, looking at historic data and speaking to other councils undertaking similar activities.
- 4.16 **Liquidity:** Compared with other investment types, property is relatively difficult to sell and convert to cash at short notice and can take a considerable period to sell in certain market conditions. To ensure that the invested funds can be accessed when they are needed, for example to repay capital borrowed, the Council ensures that properties purchased are in an active market where there is demonstrable demand to ensure that the authority does not purchase assets which it will not be able to sell on at a later date.

Loan Commitments and Financial Guarantees

- 4.17 Although not strictly counted as investments, since no money has exchanged hands yet, loan commitments and financial guarantees carry similar risks to the Authority and are included here for completeness.

Proportionality

- 4.18 The Council does not plan to become dependent on profit generating investment activity to achieve a balanced revenue budget.

Borrowing in Advance of Need

- 4.19 Government guidance is that local authorities must not borrow more than or in advance of their needs purely in order to profit from the investment of the extra sums borrowed. The Council would only not follow this guidance if interest rate forecasts and treasury advisor guidance set out that it was more cost effective, **in terms of significantly reduced debt interest charges**, for the Council to borrow for the **approved 3 year capital programme** at a point of time rather than when that expenditure is taking place over that 3 year period. It is unlikely that this will happen however the option should not be closed off. Funds would be invested. The Council's policies in investing the money borrowed, including management of the risks, would be as per normal short term Treasury Investments.

Capacity, Skills and Culture

- 4.20 **Elected members and statutory officers:** Member training will take place annually as part of the induction process. External advisors will provide reports to support investment decisions with officers ensuring that they fully understand them and can relate them to the strategic objectives and risk profile of the Council.
- 4.21 **Commercial deals:** Significant work has been undertaken using external advisors and relevant training courses have been attended to ensure that officers are fully aware of the code and statutory requirements of a local authority which is investing.

KPMG have developed a modelling tool for the Council to use when assessing potential purchases as a precursor to engaging with external consultants to ensure that potential purchases are likely to make sense from the perspective of the authority before incurring advisor costs. However, following an internal review of the policy, it has been decided that the Council may wish to make purchases which do not make a financial return or may indeed make a loss in the short term. On these occasions a business case will be developed which specifies the non-financial benefits of the investment. These are likely to be regenerative schemes for the greater good of the area with an intended long term impact. The regenerative and redevelopment benefits which will flow from the investment will be taken into account in the development of the business case, so if the net investment yield falls below 0.75% it can still proceed if these benefits are deemed to outweigh the lower than target yield.

CABINET

- 4.22 **Corporate governance:** when investment decisions are to be made, they are to be led by the Council's Director of Finance in consultation with the Corporate Management Team. They will assess the potential investment opportunity using the KPMG finance appraisal model and should they decide it presents a strong opportunity for the Council and complies with the relevant criteria a conditional offer can be made. A business case will then be developed and presented ensuring that once greater detail is included, it makes a satisfactory income yield and/or economic redevelopment and regeneration impact. When the business case is completed, if it is still compliant with the Council criteria, it will be presented to Cabinet for approval before purchase is completed. Once a purchase has been made the Director of Finance will provide quarterly reports in line with financial and monitoring reports on the status of the investment.

Investment Indicators

- 4.23 The Authority has set the following quantitative indicators to allow elected members and the public to assess the Authority's total risk exposure as a result of its investment decisions.
- 4.24 **Total risk exposure:** The first indicator shows the Authority's total exposure to potential investment losses. This includes amounts the Authority is contractually committed to lend but have yet to be drawn down and guarantees the Authority has issued over third party loans.

BROMSGROVE DISTRICT COUNCIL

CABINET

19th February 2025

Table 3: Total investment exposure in £millions

Total investment exposure	31.03.2024 Actual	31.03.2025 Forecast	31.03.2026 Forecast
Treasury management investments	0	2	4
Service investments: Loans	0	0	0
Commercial investments: Property	0	0	0
TOTAL INVESTMENTS	0	2	4
Commitments to lend	0	0	0
Guarantees issued on loans	0	0	0
TOTAL EXPOSURE	0	0	0

- 4.25 **How investments are funded:** Government guidance is that these indicators should include how investments are funded. Since the Authority does not normally associate particular assets with particular liabilities, this guidance is difficult to comply with. However, the following investments could be described as being funded by borrowing. The remainder of the Authority's investments are funded by usable reserves and income received in advance of expenditure.

Table 4: Investments funded by borrowing in £millions

Investments funded by borrowing	31.03.2024 Actual	31.03.2025 Forecast	31.03.2026 Forecast
Treasury management investments	0	0	0
Service investments: Loans	0	0	0
Service investments: Shares	0	0	0
Commercial investments: Property	0	0	0
TOTAL FUNDED BY BORROWING	0	0	0

4.26 **Rate of return received:** This indicator shows the investment income received less the associated costs, including the cost of borrowing where appropriate, as a proportion of the sum initially invested. Note that due to the complex local government accounting framework, not all recorded gains and losses affect the revenue account in the year they are incurred.

Table 5: Investment rate of return (net of all costs)

Appendix J – Consultation Results

Bromsgrove District Council - Budget Consultation for 2025/26

The budget consultation opened on Thu 5 December 2024. An email invite was sent to the Bromsgrove Community Panel. The survey was also promoted on a variety of social media channels.

The survey closed at 12noon on Thursday 2 January 2025. The response rate for the community panel was 48%. There were a total of 278 valid responses received.

About You

Answering these questions is optional. Any answers are completely anonymous and confidential. The reason why we ask you these questions is so we can:

- Make our council services open to everyone in the district
- Treat everyone fairly and appropriately when they use our services
- In consultations, make sure that we have views from all across the district

The Equality Act 2010 makes these aims part of our legal duties. Your answers help us check that we have met the law and help improve our services.
