11/0862/DK	<p>Ecological Survey Assessment prepared by Worcestershire Wildlife Consultancy was received 30.11.2011 and concludes as follows:</p> <p>On the day of the survey assessment there was no positive evidence that bats are presently (or previously) using the flat-roofed buildings adjacent to Housman Hall. Therefore, based on the available evidence, <b>there are no obvious and immediate implications</b> with regard to bats under the Wildlife and Countryside Act 1981 (as amended) or the Conservation of Habitats and Species Regulations 2010. As a result no further dedicated surveys are recommended on this part of the building.</p>
