

### BROMSGROVE DISTRICT COUNCIL

### MEETING OF THE OVERVIEW AND SCRUTINY BOARD

#### MONDAY 12TH FEBRUARY 2018 AT 6.00 P.M.

#### PARKSIDE SUITE - PARKSIDE

MEMBERS: Councillors L. C. R. Mallett (Chairman), S. A. Webb (Vice-Chairman), C. Allen-Jones, C. J. Bloore, S. R. Colella, M. Glass, C.A. Hotham, R. J. Laight, C. J. Spencer, P.L. Thomas and M. Thompson

#### **AGENDA**

- 1. Apologies for Absence and Named Substitutes
- 2. Declarations of Interest and Whipping Arrangements

To invite Councillors to declare any Disclosable Pecuniary Interests or Other Disclosable Interests they may have in items on the agenda, and to confirm the nature of those interests.

- 3. To confirm the accuracy of the minutes of the meeting of the Overview and Scrutiny Board held on 15th January 2018 (to follow)
- 4. Air Quality Management Area, Kidderminster Road, Hagley Pre-scrutiny of Cabinet Report (Pages 1 44)
- 5. Finance and Budget Working Group Update (Pages 45 86)
  - Medium Term Financial Plan
  - Fees and Charges
- 6. Measures Dashboard Working Group Update
- 7. Task Group Updates

- CCTV Short Sharp Review
- Parking Enforcement in the Vicinity of Schools Task Group
- Hospital Car Parking Charges Board investigation
- 8. Worcestershire Health Overview and Scrutiny Committee Update
- 9. Cabinet Work Programme (Pages 87 90)
- 10. Overview and Scrutiny Board Work Programme (Pages 91 94)
- 11. To consider any other business, details of which have been notified to the Head of Legal, Equalities and Democratic Services prior to the commencement of the meeting and which the Chairman, by reason of special circumstances, considers to be of so urgent a nature that it cannot wait until the next meeting.
- 12. To consider, and if considered appropriate, to pass the following resolution to exclude the public from the meeting during the consideration of item(s) of business containing exempt information:-

**RESOLVED:** that under Section 100 I of the Local Government Act 1972, as amended, the public be excluded from the meeting during the consideration of the following item(s) of business on the grounds that it/they involve(s) the likely disclosure of exempt information as defined in Part I of scheme 12A to the Act, as amended, the relevant paragraph of that part, in each case, being as set out below and that it is in the public interest to do so:-

Item No Paragraph(s)

## INFORMATION FOR THE PUBLIC

## Access to Information

The Local Government (Access to Information) Act 1985 widened the rights of press and public to attend Local Authority meetings and to see certain documents. Recently the Freedom of Information Act 2000 has further broadened these rights, and limited exemptions under the 1985 Act.

- You can attend all Council, Cabinet and Committee/Board meetings, except for any part of the meeting when the business would disclose confidential or "exempt" information.
- You can inspect agenda and public reports at least five days before the date of the meeting.
- You can inspect minutes of the Council, Cabinet and its Committees/Boards for up to six years following a meeting.
- You can have access, upon request, to the background papers on which reports are based for a period of up to six years from the date of the meeting. These are listed at the end of each report.
- An electronic register stating the names and addresses and electoral areas of all Councillors with details of the membership of all Committees etc. is available on our website.
- A reasonable number of copies of agendas and reports relating to items to be considered in public will be made available to the public attending meetings of the Council, Cabinet and its Committees/Boards.
- You have access to a list specifying those powers which the Council has delegated to its Officers indicating also the titles of the Officers concerned, as detailed in the Council's Constitution, Scheme of Delegation.

You can access the following documents:

- Meeting Agendas
- Meeting Minutes
- The Council's Constitution

at <u>www.bromsgrove.gov.uk</u>

This page is intentionally left blank

**BROMSGROVE DISTRICT COUNCIL** 

## CABINET

7<sup>th</sup> March 2018

### Air Quality Management Area – Kidderminster Road, Hagley

Relevant Portfolio Holder	Cllr Peter Whittaker					
Portfolio Holder Consulted	Yes					
Relevant Head of Service	Simon Wilkes					
Ward(s) Affected	Hagley East					
Ward Councillor(s) Consulted Cllr. Colella, Cllr. Jenkins						
Non-Key Decision						
This report contains exempt information as defined in Paragraph(s) of Part I of Schedule 12A to the Local Government Act 1972, as amended						

### 1. <u>SUMMARY OF PROPOSALS</u>

1.1 A review of Hagley air quality monitoring has been undertaken in relation to the Kidderminster Road, Hagley Air Quality Management Area to ascertain whether the area can be revoked based on historical monitoring data and current trends and levels. The reasons for the proposal are set out in the accompanying report entitled "Kidderminster Road, Hagley, AQMA Revocation Screening Assessment" of November 2017

#### 2. <u>RECOMMENDATIONS</u>

- 2.1 Cabinet is asked to RECOMMEND that the Kidderminster Road, Hagley AQMA, be revoked.
- 2.2 Air Quality will remain an important high profile issue in the area and monitoring will continue to ensure air quality objectives continue to be met. During consultation with Bromsgrove District Council Planning Department the wider location will continue to be considered as an "air quality consultation zone" where the impact on air quality is given due consideration through the planning process. In addition WRS will continue to be involved in the development of measures throughout the wider Bromsgrove District as per the Air Quality Action Plan.

### 3. KEY ISSUES

Worcestershire Regulatory Services has observed that annual average levels of Nitrogen Dioxide (NO<sub>2</sub>) within the Hagley monitoring network has fallen below the national objectives that require the adoption of an air quality management area.

In light of these findings WRS undertook an assessment of historical data for all monitoring locations in the area and confirmed that there is a general decrease in the trend of  $NO_2$  levels since monitoring began in 2001. Concentrations have been recorded as below the national objective by a factor of 10-15% within the AQMA over the last 3 years. Full details of the findings can be seen in appendix

1 *"Kidderminster Road, Hagley AQMA Revocation Screening Assessment*" dated November 2017".

The prime function of AQMA's are to facilitate the creation of air quality management plans and the delivery of air quality improvements. Such plans invariably provide fringe benefits such as improved traffic flow however AQMA's are complementary to the development of local transport plans and do not provide a vehicle for the delivery of highways management initiatives that fall beyond the scope of delivering compliance with government air quality objectives.

DEFRA's Local Air Quality Management Policy Guidance (PG16) and Technical Guidance (TG16) (April 2016) provides information on the revocation of an AQMA. Section 4.9 of PG16 states that 'For revocation this should demonstrate that air quality objectives are being met and will continue to do so... typically this is after three years or more compliance'. Section 3.47 of TG16 states 'an AQMA may be amended or revoked following a screening assessment or on the basis of robust monitoring evidence'. An AQMA Revocation Order is required to officially revoke an AQMA.

### **Financial Implications**

3.1 None

### Legal Implications

- 3.2 Part IV of the Environment Act 1995, the Local Air Quality Management process (LAQM) and subsequent Policy Guidance (LAQM.PG16) and Technical Guidance (LAQM.TG16) documents set out the duty of local authorities to review and assess local air quality within their areas against a set of health based objectives and work to improving poor air quality identified. The Objective of most importance to the Council is the annual mean nitrogen dioxide (NO2) objective which should not exceed 40 microgrammes per cubic metre of air at the façade of a residential dwelling or school.
- 3.3 Poor air quality in general can affect peoples' health, playing a role in many chronic conditions such as cancer, asthma, heart disease and neurological changes linked to dementia. Outdoor air pollution contributes to about 40,000 premature deaths per year in the UK (Royal College of Physicians & Royal College of Paediatrics and Child Health, 2016). Nitrogen Dioxide in particular is known to cause respiratory illnesses and possibly increase the risk of lung infections. Young children and asthma sufferers are most sensitive to this pollutant.
- 3.4 Where there is robust evidence to demonstrate that the Objective is being met and will continue to be met an Air Quality Management Area (AQMA) can be revoked (LAQM.TG16). The decision to revoke an Air Quality Management Area

## CABINET

can be taken either following a detailed study or following a screening assessment based on robust monitoring evidence.

### Service / Operational Implications

3.3 None

### **Customer / Equalities and Diversity Implications**

3.4 None

### 4. RISK MANAGEMENT

4.1 Low – robust monitoring data indicates that air quality objectives within the area are being met.

### 5. <u>APPENDICES</u>

*Kidderminster Road, Hagley AQMA Revocation Screening Assessment* dated November 2017.

## **Executive Summary**

This report has been produced on behalf of Bromsgrove District Council (BDC) and represents a screening assessment of air quality at the Kidderminster Road, Hagley Air Quality Management Area (AQMA). The assessment has been carried out to determine whether the Kidderminster Road, Hagley AQMA can be considered for revocation. The assessment has not included a detailed dispersion model as available monitoring data is sufficient to provide a robust review of nitrogen dioxide levels at the AQMA over the past fifteen years. All available monitoring data held for the area from 2001 to 2016 has been reviewed.

Levels of nitrogen dioxide measured between 2001 and 2016 have generally followed a downward trend year on year discernible when viewed over the long term. There have only been three marginal exceedances of the  $NO_2$  annual mean objective at relevant exposure observed in the past ten years (in 2007, 2010, and 2013).

It is considered to be very unlikely that a consistent exceedance of the nitrogen dioxide annual mean objective over future years will occur, as demonstrated by the lack of consistent exceedances between 2001 and 2016 and a consistent downward trend in  $NO_2$  concentrations across that same period. It is therefore recommended that the Kidderminster Road, Hagley AQMA is revoked following the necessary statutory consultation.

## 1 Introduction

This report has been produced on behalf of Bromsgrove District Council (BDC) and represents a screening assessment of air quality at the Kidderminster Road, Hagley Air Quality Management Area (AQMA) between 2001 and 2016. The assessment has been carried out to determine whether the AQMA can be considered for revocation. The assessment has not included a detailed dispersion model as available monitoring data is sufficient to provide a robust review of nitrogen dioxide levels at the Kidderminster Road AQMA over the past fifteen years.

The policy framework for air quality management in the UK is set out in The Air Quality Strategy for England, Scotland, Wales and Northern Ireland (Defra, 2007). The Strategy provides air quality standards and objectives for key pollutants designed to protect human health and the environment. The Strategy also sets out how local government can contribute to achieving the air quality objectives. The Local Air Quality Management (LAQM) regime is set out in the Strategy and requires every local authority to carry out regular reviews and assessments of air quality in its area to identify whether the air quality objectives have been, or will be, achieved at relevant locations by the appropriate dates. Where air quality objectives are not being met the local authority must declare an Air Quality Management Area (AQMA) and produce an action plan to identify appropriate measures that can be taken in pursuit of the objectives.

The Air Quality Strategy (Defra, 2007) sets out air quality standards and objectives for key pollutants. The standards are set as concentrations below which health effects are unlikely, or below which risks to public health would be very small (even in sensitive population groups). The air quality objectives only apply where "relevant exposure" exists, that is where members of the public are likely to be regularly present for the duration of the averaging time of the objective. For annual mean objectives relevant exposure is limited to residential proprieties, school and hospitals. The 1-hour objective applies to residential properties, schools and hospitals as well as any outdoor location where members of the public might reasonably be expected to stay for 1 hour or more, such as outdoor seating areas at eating establishments, parks, busy shopping streets etc. The statutory air quality objectives applicable to LAQM in England can be found in Table A.1 in Appendix A.

Technical Guidance for LAQM (LAQM.TG.16) sets out the approach for LAQM. When an exceedance of an air quality objective has been identified the local authority is required to

### **Bromsgrove District Council**

declare an Air Quality Management Area (AQMA). LAQM.TG.16 and LAQM.PG.16 also sets out the requirements for when an AQMA may be revoked.

### **Bromsgrove District Council**

## 2 Background to the Kidderminster Road, Hagley AQMA

The Kidderminster Road, Hagley AQMA was declared by BDC on the 17th February 2010. A copy of the sealed order, including a location plan, can be found in Appendix B. The AQMA was declared following a detailed assessment carried out in July 2009 that was undertaken due to monitored exceedances of the annual mean objective for NO<sub>2</sub>. This assessment included detailed dispersion modelling utilising ADMS Roads dispersion model (2.3). This assessment made recommendation for declaration of the AQMA based on predicted exceedances of the annual mean objective at locations of relevant exposure. There was also a recommendation for installation of an automatic air quality monitor to provide more robust monitoring data.

Since declaration of the AQMA in February 2010 monitoring of  $NO_2$  levels has continued using a network of diffusion tubes. An automatic monitor was also in operation between June and December 2010.

A countywide action plan for Worcestershire was produced covering all AQMAs within the County and formally adopted in the autumn of 2013. This identified many potential air quality solutions for each AQMA that were split between generic actions applicable to all areas and specific actions for each AQMA. With this in mind WRS conducted a "priority actions" process in 2014 for each AQMA including Hagley.

Source apportionment of roadside emissions of NO<sub>2</sub>, carried out as part of the Further Assessment in 2012 following declaration of the AQMA, identified the dominant sources to be traffic related emissions and background concentrations. The source apportionment helped identify key areas to be addressed and enabled prioritisation of measures in a targeted fashion. Details of the prioritisation methodology can be found in the full Air Quality Action Plan for Worcestershire (September 2013) document and the Air Quality Action Plan for Worcestershire Progress Report 2013-2015 (October 2015), both available online at

http://www.worcsregservices.gov.uk/environmental-health/pollution/air-quality/airqualityaction-plan.aspx

The prioritised actions for Kidderminster Road, Hagley AQMA are listed below:-

- KR5 Review of signalised junction at foot of Hagley Hill of A456 and A491
- 5.1.1 Alteration of phasing of traffic light systems

### **Bromsgrove District Council**

- 5.1.8 Introduction of traffic signals at Hagley Island roundabout
- 5.1.4 Variable Messaging Systems
- 5.2.2 Freight Quality Partnership

Progress made with these actions is as follows:-

**5.1.1** and KR5 – Alteration of the phasing of traffic light systems / Review of signalised junction at Kidderminster Rd/Birmingham Rd/Stourbridge Rd Junction - Worcestershire County Council has confirmed that this action has been completed: The signal set controller apparatus was updated on 20/04/2015 to MOVA which gradually optimises the signals operation according to observed demand. WCC further advised in July 2016 that 'The equipment at Hagley is the very latest technology, so further investment in signalling infrastructure here is not required' and 'traffic flow is starting to settle down now in Hagley, which suggests that the signal calibration process is nearing completion'.

**5.1.8 – Introduction of signals at roundabouts -** Worcestershire County Council has confirmed this action has been completed: "Developer led reconstruction of the Hagley Roundabout (A456/A491) with signals was opened to the public on the 22/01/2015. Minor alignment revisions were made to lining / destination lining on the 06/03/2015. Revisions were made to the A491 northbound access onto the roundabout on the 21/08/2015. Each set of signals is operating using MOVA (WCC June 2015)."

**5.1.4 – Variable Messaging Systems to redirect vehicles away from AQMA (and other relevant messages)** - No progress at this time: In October 2015 Worcestershire County Council confirmed plans to install Variable Messaging Systems (VMS) signs across the County. The strategy is to complete a ring of VMS signs around Worcester City in 2016 then replicate this in Bromsgrove and Kidderminster areas as funding is identified.

**5.2.2 – Freight quality partnership** - On-going: This action is designed to encourage freight vehicles to avoid the AQMA and find alternative routes. Further discussion with County Highways in 2014 identified two separate approaches:

1) Use of paper HGV route maps is now outdated, work should focus on updating data with Sat Nav companies to ensure route planning avoids AQMAs.

### **Bromsgrove District Council**

2) A wider FQP that potentially restricts HGV access to AQMAs could form part of a wider Transport Strategy for Worcester. In 2015 Worcestershire County Council confirmed they provide update information for Sat Nav technology providers on an on-going basis.

Other non-priority actions have been progressed as part of district or countywide initiatives. These are detailed within the Air Quality Action Plan Progress Report for Worcestershire April 2015 to March 2016 available online at

http://www.worcsregservices.gov.uk/media/2294583/WRS-AQAP-Progress-Report-2015-16.pdf.

Levels of measured  $NO_2$  between 2001 and 2016 have generally followed a downward trend year on year with only three measured exceedances of the  $NO_2$  annual mean objective at relevant exposure observed in the past ten years (in 2007, 2010 and 2013).

### **Bromsgrove District Council**

## 3 Detailed Review of Data

## 3.1 Air Quality Monitoring

BDC undertakes air quality monitoring of nitrogen dioxide (NO<sub>2</sub>) across the district using nonautomatic passive diffusion tubes. In 2016 monitoring was undertaken using 12 diffusion tubes in the Hagley area at 10 locations. 7 of these were located within the boundary of the AQMA, and 3 outside. Monitoring point 9/a/b is a triplicate location (three diffusion tubes located together). Data is also held for three historic monitoring locations that have since been discontinued and for the automatic air quality monitor in operation in 2010. All available monitoring data held in and around the Kidderminster Road, Hagley AQMA has been subject to review.

The data range held spans from 2001 up until 2016, presenting a long history of monitoring data. Some monitoring points present more reliable data than others based on location. An overview and assessment of data from each location is presented later in this report. All available data has been reviewed as part of the assessment.

Details of all monitoring locations are presented in table 1.0 below.

A map detailing all the monitoring locations referred to in this report is presented in figure 1 below.

## 3.2 Monitoring Data and Long-term Trends

Measurements of  $NO_2$  have been taken over a number of years in the area prior to declaration of the AQMA and since. As such a robust data set has been built up over a significant period of time. Available data from monitoring locations has been identified for the period 2001 to 2016.

The last exceedance of the annual objective was recorded in 2013 at triplicate location 9/a/b with a level of  $40.2\mu g/m^3$ . This was a minor exceedance of the  $40\mu g/m^3$  objective. Prior to this the objective of  $40\mu g/m^3$  was equalled in 2010 and exceeded in 2007 and 2005 with levels of  $42.8\mu g/m^3$  at the same location. The annual mean objective was also exceeded at location 11 in 2003 with a recorded value of  $40.7\mu g/m^3$ . It should be noted that 11 is located outside the area declared as an AQMA. No other exceedances were measured at this location.

Historical data indicates that there were also a number of exceedances at monitoring location KR between 2008 and 2011. Concentrations here ranged between 54.4µg/m<sup>3</sup> and 64µg/m<sup>3</sup>. However it should be noted that this monitoring point was located directly adjacent to the highway and did not represent relevant exposure. It is understood that KR was located roadside in front of the property 78 Kidderminster Road whilst tubes 9a/b were located on the façade of the property. Therefore 9a/b represents relevant exposure in this location and is considered to be a much more accurate representation of conditions. As KR does not represent relative exposure and given close proximity to the carriageway results here are not considered to be a relevant exceedance of the objective. Location KR was discontinued at the end of 2011 because it was not representative of relevant exposure.

In the last three years levels of nitrogen dioxide have been monitored below the annual mean objective by greater than ten percent (36µg/m<sup>3</sup> or less) at all ten monitoring locations within or near to the AQMA.

Table 2.0 below shows the monitoring results for all locations from 2001 to 2016.

The full set of available monitoring data has been assessed in relation to the number of exceedances of the annual mean objective for NO<sub>2</sub> ( $40\mu g/m^3$ ) and observed levels within 5% of the annual mean objective (5% AQO) for NO<sub>2</sub> ( $38\mu g/m^3$ ).

Table 3.0 provides details of the number of exceedances of the  $NO_2$  annual mean air quality objective between 2001 and 2016 at relevant exposure.

Table 4.0 provides details of the number of concentrations observed within 5% of the NO<sub>2</sub> annual mean air quality objective between 2001 and 2016 at relevant exposure.

Site ID	Site Description	No. exceedances of NO <sub>2</sub> Annual Mean Objective (40µg/m <sup>3</sup> ) at relevant exposure			
11	74 Worcester Lane, Hagley	1 2003 – 40.7µg/m3

### **Bromsgrove District Council**

It can be seen that over the past fifteen years there have been five monitored exceedances of the  $NO_2$  annual mean objective. These have occurred at location 11 in 2003, located outside the AQMA, and at 9/a/b in 2005, 2007, 2010 and 2013. These exceedances were only slightly elevated in nature, ranging between  $40.0\mu g/m^3$  and  $42.8\mu g/m^3$ . It has also been a significant period of time since the majority of these exceedances occurred with the last being in 2013 with all others being in or prior to 2010.

In addition there have been five occasions over the fifteen year period where NO<sub>2</sub> concentrations have been monitored within 5% of the NO<sub>2</sub> annual mean objective (i.e. above  $38\mu g/m^3$ ). These have occurred at tube location 10 in 2010, where a concentration of  $38.0\mu g/m^3$  was measured, and at 9/a/b in 2004, 2006, 2008, and 2009 with concentrations ranging between 38 and  $39.3\mu g/m^3$ . It is useful to consider concentrations within 5% of the objective as an indication of how likely it is that the objective might be exceeded in future years. For example, an area with consistent NO<sub>2</sub> levels within 5% of the objective is more likely to see exceedances of the objective associated with meteorological fluctuations than an area where levels are consistently below 5% of the objective. All of these results referred to above occurred a significant period of time ago with the last being in 2010.

The above evaluation identifies that within the last six years there has been only one occasion where the objective has been exceeded and no other instances within 5% of the  $NO_2$  annual mean objective. This indicates a significant improvement in air quality in the area over the duration of the monitoring period.

A series of graphs have been produced to illustrate long-term trends in measured NO<sub>2</sub> concentrations at relevant exposure. These are reproduced and discussed below.

### **Bromsgrove District Council**

Figure 2.0 Monitored Annual Mean NO<sub>2</sub> at all locations

The graph above provides a diagrammatical representation of monitoring data held for all locations between 2001 and 2016 reviewed as part of this assessment. The black line represents the annual mean objective for nitrogen dioxide of 40µg/m<sup>3</sup>. It can be seen from the graph that the vast majority of data falls below the objective. This is with the exception of KR which was located next to the highway and was not considered to represent relevant exposure. This is discussed in more detail later in this section.

For clarity separate graphs have been produced for all locations and are presented below with commentary. Trendlines for the individual tubes have been produced in order to provide a graphical representation of trends in  $NO_2$  concentrations at each monitoring location for the period of operation. It can be seen that generally there has been a consistent downward trend in  $NO_2$  concentrations at the locations during the monitoring period.

### **Bromsgrove District Council**

**9/a/b** – This monitoring location has been in place since 2004. Minor exceedances of the objective were recorded at this location in 2005, 2007, 2010 and 2013 ranging between  $40\mu g/m^3$  to  $42.8\mu g/m^3$ . Levels have been recorded within 5% of the objective from 2004 to 2010. With the exception of 2013 levels of NO<sub>2</sub> have generally declined at this monitoring point within the last six years. This can be seen clearly from the trendline on the graph above.

### **Bromsgrove District Council**

**11** – This monitoring location has been in place since 2003. In this first year a minor exceedance of the objective was recorded with a level of  $40.7\mu g/m^3$ . Since then there have been no further exceedances at this location with only one occasion where the levels were within 10 percent of the objective, with a level of  $36.6\mu g/m^3$  in 2007. For the last three years levels here have been recorded over 20% below the objective. The trendline on the graph above shows a clear decline in concentrations over the monitoring period. It should be noted that this location is outside of the area declared as an AQMA.

**10** – This location has been monitored since 2004 with no recorded exceedance of the objective. The highest level recorded was  $38\mu g/m^3$  in 2010. This was the only occasion where levels reached within 5% of the objective. The trendline on the graph above indicates that concentrations have remained reasonably stable at this location.

### **Bromsgrove District Council**

Figure 6.0 – KR62 monitored annual mean NO<sub>2</sub>

**KR62** – This location has been monitored since 2012 with no recorded exceedance of the objective. The highest level recorded was 33.86µg/m<sup>3</sup> in 2016. The trendline on the graph above indicates a slight increase in concentrations although in reality concentrations have remained largely constant at this location.

Figure 7.0 - 8 monitored annual mean NO<sub>2</sub>

**8** - This location has been monitored since 2004 with no recorded exceedance of the objective. The highest recorded level was  $30.3\mu g/m^3$  in 2007. Levels of nitrogen dioxide have remained at least 25% and up to 50% below the objective for the majority of the monitoring duration. A significant decline in concentrations can be seen from the trendline shown on the graph above.

### Bromsgrove District Council

**HL** - This location has been monitored since 2012 with no recorded exceedance of the objective. The highest recorded level was  $34\mu g/m^3$  in 2013. The trendline indicates that concentrations have remained largely stable at this location.

**RES 1 – 4** – These monitoring locations were introduced in 2014. No exceedance of the objective has been monitored at any of these locations. The highest recorded value was  $35.67\mu$ g/m<sup>3</sup> at RES 4 in 2016. It should be noted that monitoring points RES 3 and RES 4

### **Bromsgrove District Council**

are located outside of the AQMA boundary. A trendline has not been included for these locations as they have only been in operation for a relatively short period of time. It can be seen that there has been a slight increase of concentrations at these locations however they are all 10% or more beneath the objective.

Figure 10.0 - 7 monitored annual mean NO<sub>2</sub>

**7** – This location was monitored between 2001 and 2011 and never breached the annual average objective with a highest concentration of  $33.4\mu g/m^3$  in 2002 and a lowest of  $22.5\mu g/m^3$  in 2011. A significant decline in concentrations can be seen from the trendline shown on the graph above.

**KR** – This location was monitored between 2008 and 2011. KR was located next to the Kidderminster Road approximately 1m away from traffic. As mentioned previously this

### **Bromsgrove District Council**

location did not represent relevant exposure as it was sited on a lamppost very close to the road and some distance from the nearest property. The highest level of  $NO_2$  recorded at the site was  $64\mu$ g/m<sup>3</sup> in 2010.

The further assessment carried out in 2012 noted that there was no exceedance of either the annual mean objective or the 1-hour mean objective at this location because there was no relevant exposure. In addition the location was not used for verification of the modelling conducted as part of the further assessment, which stated:-

'The model output for the study area has been verified against five roadside diffusion tubes for 2010. Two of the monitoring sites have been excluded from the verification, i.e. the continuous monitor and diffusion tube site KR. These monitors were located close to the kerbside and it was considered these sites were not representative of distances from the road where there is relevant exposure' (Further Assessment, March 2012 - A2.2).

KR was discontinued at the end of 2011 as part of the yearly diffusion tube rationalisation program as it did not represent relevant exposure. It was also located near to 9/A/B, which is sited on the façade of a residential property and therefore did represent relevant exposure.

**KR2** – This location was monitored in 2010 and 2011 and there was no exceedance of the national objective. The highest recorded level was  $31\mu g/m^3$ . The site was decommissioned as part of the 2012 rationalisation as it was located in close proximity to 11, a long standing position, and recorded low values of NO<sub>2</sub>.

### **Bromsgrove District Council**

**Automatic Monitor** – the continuous air quality monitor was in place between June and December 2010 with no exceedance of the annual objective. A level of 38µg/m<sup>3</sup> was recorded following annualisation of short-term data in line with LAQM Technical Guidance. The analyser was located approximately 6m away from the nearest relevant receptor.

#### **Bromsgrove District Council**

## 3.3 Results Discussion

Monitoring results have been assessed for the fifteen year period 2001 to 2016 at all available monitoring locations. As discussed above only five minor exceedances of the  $NO_2$  annual mean objective have been measured during that time. There have also been five other occasions when measured concentrations fell within 5% of the  $NO_2$  annual mean objective.

All of the above instances occurred in 2010 or prior to it with the one exception in 2013. It is noted that both 2010 and 2013 saw higher than usual concentrations of NO<sub>2</sub> both across Worcestershire and nationally. NO<sub>2</sub> concentrations are extremely susceptible to meteorological conditions. Generally higher concentrations are seen on cold, still days where NO<sub>2</sub> takes longer to volatise and disperse and lower concentrations on warm, breezier days where volatilisation and dispersion occur much more rapidly. In 2010 and 2013 the UK experienced cooler winters than in previous and subsequent years and as such it is very likely that the higher concentrations of NO<sub>2</sub> observed during these years can be attributed to meteorological conditions.

With the exception of the instances outlined above, monitored concentrations of  $NO_2$  within the Kidderminster Road, Hagley AQMA have generally fallen well below the  $NO_2$  annual mean objective of  $40\mu g/m^3$ . On the whole levels have also not reached within 5% of the  $NO_2$ annual mean objective over the past six years. The highest monitored levels of nitrogen dioxide recorded within the area for each year are presented in the graph below.

### **Bromsgrove District Council**

A consistent downward trend in monitored NO<sub>2</sub> levels within the AQMA can be observed over the past fifteen years when viewing all locations. This downward trend may be attributed to any number of factors however the most significant is likely to be the general trend of increasingly mild winters combined with minor improvements in emissions associated with a modernised vehicle fleet. In addition factors such as improvements made to the local highway network and changes in travel behaviours, such as small increases in uptake of cycling and walking, will have also contributed to any improvement in NO<sub>2</sub> concentrations.

When the highest recorded values are compared with the lowest recorded values and average concentrations from all monitoring locations a distinct pattern in year on year fluctuations can be observed. These patterns fit with the observations made above relating to changes in meteorological conditions. The peaks are seen in years with colder winters such as 2010 and 2013 with lower concentrations in years with more mild weather conditions. A distinct downward trend comparable across all values is particularly noticeable when plotted in a diagrammatic form as can be seen on the graph below. Average values have been presented with and without KR for comparison.

#### **Bromsgrove District Council**

## 4 **Conclusions and Recommendations**

Assessment of the available monitoring data from all monitoring locations in and around the Kidderminster Road, Hagley AQMA has been undertaken. A small number of marginal exceedances of the annual mean objective for nitrogen dioxide have been observed. All of these have taken place prior to 2010 with one exception in 2013. Therefore there has been one marginal exceedance of the objective from a maximum of ten monitored locations in the last six years. Analysis of all available data indicates a downward trend in concentrations of nitrogen dioxide.

The Kidderminster Road, Hagley AQMA declaration was made based on marginal exceedances of the NO<sub>2</sub> annual mean objective in 2010. It is likely that the advent of increasingly mild winters over recent years combined with modernisations of the general vehicle fleet have resulted in concentrations of NO<sub>2</sub> that consistently fall well below the NO<sub>2</sub> annual mean objective. It is possible that particularly cold winters may result in the occasional marginal exceedances of the NO<sub>2</sub> annual mean objective however current understanding of the UK climate suggests that milder winters are likely to continue. Therefore any marginal exceedance of the NO<sub>2</sub> annual mean objective associated with possible occasional colder winters will be isolated. Consistent exceedances of the NO<sub>2</sub> annual mean objective over future years are considered unlikely, as demonstrated by the lack of consistent exceedances between 2001 and 2016 and a consistent downward trend in NO<sub>2</sub> concentrations across that same fifteen year period.

In addition, measures that have been implemented in the area as part of the Air Quality Action Plan (detailed in section 2 above) should also continue to have a positive impact on air quality. Improvements have been made to the phasing of traffic lights in the area which has included upgrading to the latest technology available. Traffic signals have also been introduced at the Hagley Island roundabout with additional alignment revisions. Other actions, such as Variable Message Signage, are also due for roll out in the near future subject to the appropriate funding. All of which are considered to offer a gradual betterment to air quality over future years.

These improvement works have formed the basis of the Action Plan for the Kidderminster Road, Hagley AQMA and WRS will continue to be heavily involved to ensure that improvements to air quality are realised. This is in accordance with PG(16) para. 4.11 *"Following a revocation, ideally the local authority should put in place a local air quality strategy (para 2.12) to ensure air quality remains a high profile issue..."* 

### Page 32
### **Bromsgrove District Council**

It is therefore recommended that Bromsgrove District Council consider revocation of the Kidderminster Road, Hagley AQMA.

LAQM Technical and Policy Guidance sets out some requirements in relation to revocation of AQMAs. These are summarised in the table below and evidence for each point provided.

LAQM revocation requirement laid out in	Evidence in relation to Kidderminster				
·					
PG(16) and TG(16)	Road, Hagley AQMA				
PG(16) 4.9 "Demonstrate that air quality objectives are being met and will continue to do so Confidence that the improvements will be sustainedTypically this is after three years or more of compliance.	There has been no measured exceedance of the NO <sub>2</sub> annual mean objective at relevant exposure in the last three years. There has been no measured concentration of NO <sub>2</sub> within 5% of the NO <sub>2</sub> annual mean objective at relevant exposure in the last				
	b) because at relevant exposure in the last three years. Generally concentrations of NO <sub>2</sub> have consistently been below the NO <sub>2</sub> annual mean objective at relevant exposure over the past fifteen years, with five exceptions. Marginal exceedances of $40.2\mu g/m^3$ in 2013, $40.0\mu g/m3$ in 2010, $42.8\mu g/m^3$ in 2007 and 2005, and $40.7\mu g/m^3$ in 2003. These concentrations are likely associated with cooler winters and are consistent with observed higher concentrations across the County and nationally in those years.				
	Generally concentrations of $NO_2$ have consistently been below 95% of the $NO_2$ annual mean objective at relevant exposure over the past fifteen years, with a few exceptions. These occurred in 2010, 2009, 2008, 2006 and 2004. There has been a consistent downward trend in $NO_2$ concentrations at all monitoring locations within the AQMA over the past ten years.				
TG(16) 3.46 & 3.47 "In most cases the decision to revoke an AQMA should only be taken following a detailed studyhowever, in some instances if compelling evidence exists, detailed modelling to support the decision torevoke an AQMA may not be necessary and an AQMA may be amended or revoked following a screening assessment	Detailed dispersion modelling has not been undertaken in this case. It is considered that the fifteen years of monitoring data available across numerous monitoring locations provides sufficiently robust evidence on which to carry out a screening assessment, particularly considering the very small number of measured exceedances of the				

### **Bromsgrove District Council**

on the basis of robust monitoring evidence.	NO <sub>2</sub> annual mean objective.
	The Kidderminster Road, Hagley AQMA has only seen three exceedances of the NO <sub>2</sub> annual mean objective at relevant exposure in the past decade, and none since 2013. Since 2011 there has been only a single breach and no occasions where concentrations were within 5% of the NO <sub>2</sub> annual mean objective. It is considered to be disproportionate to carry out full detailed dispersion modelling in relation to any decision regarding revocation.
	As a result a detailed screening assessment has been undertaken and is presented in this report.
TG(16) 3.48 " pollutant concentrations may vary significantly from one year to the next, due to the influence of meteorological conditions, and it is important that authorities avoid cycling between declaring, revoking and declaring again, due simply to these variations. Therefore, before revoking an AQMA on the basis of measured pollutant concentrations, the authority therefore needs to be reasonably certain that any future exceedances (that might occur in more adverse meteorological conditions) are unlikely. For this reason, it is expected that authorities will need to consider measurements carried out over several years or more, national trends in emissions, as well as local factors that may affect the AQMA, including measures introduced as part of the Air Quality Action Plan, together with information from national monitoring on high and low pollution years"	It is acknowledged that the influence of meteorological conditions is a significant factor when considering revocation of an AQMA. As discussed above it is considered likely that the most recent exceedances of the NO <sub>2</sub> annual mean objective observed within the AQMA are likely to be attributable to cooler winters in 2013 and 2010. The trend for higher concentrations in these years can been seen both locally and nationally. However, in considering that NO <sub>2</sub> concentrations in the AQMA are generally measured to be well below the NO <sub>2</sub> annual mean objective, it is considered to be very unlikely that changing meteorological conditions would produce any consistent exceedance of the NO <sub>2</sub> annual mean objective that would require redeclaration of an AQMA in the future. Particularly considering the current understanding of climate and the predicted increase in warmer winters across the UK going forward.
	In addition the traffic signalling and roundabout improvements made to the road network in this area is considered to have improved traffic flow and reduced congestion through the existing AQMA area, having a positive impact on air quality. This planned improvement work formed the basis of the Action Plan for the AQMA and WRS will continue to be involved in it's development to ensure that air quality remains a high profile issue and ensure that improvements to air quality are realised.

### **Bromsgrove District Council**

In conclusion it is recommended that Bromsgrove District Council consider revocation of the Kidderminster Road, Hagley AQMA. There have been limited exceedances of the  $NO_2$  annual mean objective between 2001 and 2016 with the majority taking place prior to and including 2010. Only one minor exceedance of the objective has been recorded in the last six years. This was a level of 40.2µg/m3 in 2013. It is considered to be very unlikely that any consistent exceedance of the NO<sub>2</sub> annual mean objective will occur in the future.

Air Quality will remain an important high profile issue in the area in order to ensure that concentrations of  $NO_2$  remain below the objective. The area will continue to be an "air quality consultation zone" within the WRS Planning Checklist ensuring that air quality is given due consideration through the planning process. In addition WRS will continue to be involved in the development of measures throughout the wider Bromsgrove District as per the Air Quality Action Plan.

## Appendix B: Kidderminster Road, Hagley AQMA Sealed Order

Environment Act 1995 Part IV Section 83(1)

Bromsgrove District Council AQMA Order

Bromsgrove District Council in exercise of the powers conferred upon it by Section 83(1) of the Environment Act 1995, hereby makes the following Order.

This Order may be cited/referred to as the Bromsgrove District Council Air Quality Management Area No 2, and shall come into effect on 17th February 2010

The area shown on the attached map in red is to be designated as an air quality management area (the designated area). The designated area incorporates part of Kidderminster Road, Stourbridge Road and Hagley Hill, Hagley. The map may be viewed at the Council Offices.

This Area is designated in relation to a likely breach of the nitrogen dioxide (annual mean) objective as specified in the Air Quality Regulations 2000

This Order shall remain in force until it is varied or revoked by a subsequent order.

The Common Seal of Bromsgrove District Council

was hereto affixed on 17/02 we and signed in the presence of /on behalf of said Council

### CABINET

### 7th FEBRUARY 2018

### MEDIUM TERM FINANCIAL PLAN 2018/19 -2021/22

Relevant Portfolio Holder	Brian Cooper
Portfolio Holder Consulted	Yes
Relevant Head of Service	Jayne Pickering (Exec Director)
Wards Affected	All
Ward Councillor Consulted	None specific

### 1. <u>SUMMARY OF PROPOSALS</u>

1.1 To enable to consider the final revenue position and the Capital Programme for 2018/19-2021/22.

### 2. <u>RECOMMENDATIONS</u>

- 2.1 Cabinet is asked to recommend to Full Council
  - 2.1.1 Approve the additional income / efficiencies as attached at Appendix 1: 2018/19 £ 580k
    - 2020/21 £ 53k 2021/22 £272k
  - 2.1.2 Approve the unavoidable pressures as attached at Appendix 2: 2018/19 £ 515k
    - 2019/20 £ 3k
  - 2.1.3 Approve the Revenue bids as attached at Appendix 3: 2018/19 £165k 2019/20 £15k
  - 2.1.4 Approve the Capital Programme bids as attached at Appendix 4: 2018/19 £1.423m 2019/20 £1.109k 2020/21 £1.940m 2021/22 £1.245m
  - 2.1.5 The approval of the return / release from balances of : 2018/19 £ 16k ( return to balances) 2019/20 £ 563k ( transfer from balances) 2020/21 £ 494k ( transfer from balances) 2021/22 £ 645k ( transfer from balances)
  - 2.1.6 Approval of the Increase of Council Tax by 2.99% (£6.29 pa) per Band D equivale برجة 2018/19

2.1.7 That the budget savings and pressures for 2018/19-2021/22 are subject to change due to the potential impact of changes to service delivery and the localisation of Business Rates together with any future changes to New Homes Bonus.

### 3. <u>KEY ISSUES</u>

### **Financial Implications**

- 3.1 The Council's Medium Term Financial Plan (MTFP) provides the framework within which the revenue and capital spending decisions can be made. For 2018/19 a 4 year plan is proposed to 2021/22. The plan addresses how the Council will provide financial funding to the Strategic Purposes and ensure residents receive quality services to meet their needs in the future. The Purposes that drive the financial considerations are :
  - Help me find somewhere to live in my locality
  - Provide good things for me to see, do and visit
  - Help me live my life independently
  - Help me run a successful business
  - Help me be financially independent
  - Keep my place safe and looking good
- 3.2 When reviewing the budget projections officers consider the impact of demand on service and the costs associated with this demand. This may result in additional costs (associated with maintaining current service delivery) or reductions in anticipated income revenue over the next 4 years.
- 3.3 As Members are aware there continue to be considerable pressures facing the Council over the next 4 years as a result of a number of issues including:
  - Potential further reductions in New Homes Bonus Grant
  - Impact of Negative Revenue Support Grant currently estimated at £740k in 2019/20. There is a consultation paper expected on this in Spring 2018.
  - Impact of the Localisation of Business Rates scheme which is now deferred to 2020/21.
  - Impact of the fair funding review which is to be implemented in 2020/21.

### Agenda Item 5 BROMSGROVE DISTRICT COUNCIL

### CABINET

### 7th FEBRUARY 2018

3.4 Officers will continue to work with our partners to identify the costs that may be associated with some of these changes.

### 3.5 Settlement

- 3.5.1 The provisional settlement was announced in mid-December 2017. A number of issues were included within the information, including;
  - Local Government Funding Reform to be implemented in 2020/21. A Consultation paper to be published in Spring 2018.
  - Advised that the Business Rates Baseline reset will be in 2020/21
  - From 2020/21 all grants to be included in Business Rates
     Retention
  - Council Tax can increase Council Tax by 3% (previously 2%) without a referendum for both 2018/19 & 2019/20. This would increase Council Tax by approximately £47k.
  - Business Rate Pilots Worcestershire not approved as a pilot. Potential for further rounds of bidding. Therefore Bromsgrove will remain in GBS Pool for 2018/19
  - No changes to New Homes Bonus
  - Advised that there will be consultation in Spring 2018 in relation to "negative " grant – currently £740k in 2019/20

### 3.6 Revenue Support Grant

- 3.6.1 This Council in common with virtually every other Council in the country signed up to the government offer of a four year funding settlement. This brought more certainty to the funding figures but not complete certainty or protection from changes to the funding levels as described below.
- 3.6.2 As Members are aware from previous reports the Revenue Support Grant for the Council was withdrawn from 2016/17 with 2 years of transitional grant being paid to reduce the impact of the income shortfall. A transitional grant of £114k was paid in 2017/18 with no grant payable in 2018/19.
- 3.6.3 Within the current projections there is an assumption that a repayment will be made to Government in 2019/20. This is due to the calculated core spending power for the Council being less than the estimated funding received. For 2019/20 the provisional settlement provides for a £740k repayment. Officers have projected that this will continue into 2021/22.

### 3.7 Business Rates

3.7.1 For 2018/19 the government assessed baseline for business rates is £1.680m, if business rates pragead ove the baseline, then this council

### CABINET

### 7th FEBRUARY 2018

keeps a proportion of that funding. The opposite applies for any losses with the Council having to repay some of it its formula funding. It is anticipated that there will be a reset of business rates in 2020/21which will absorb any growth and the Government has proposed that the changes to the Business Rates funding will be applicable from 2020/21,however no further details have been received on this.

### 3.8 New Homes Bonus (NHB)

- 3.8.1 The amount of NHB for 2018/19 has been confirmed as £1.643m which is £128k less than anticipated in the MTFP. This is due to the Band D equivalent properties being less than anticipated due to redevelopments not being delivered in the District. The 2018/19 income is £315k. The 0.4% levy on growth equated to 169 properties which would have generated approximately £217k additional income.
- 3.8.2 The Government also announced in the settlement that they expect to make further changes to NHB in future years. So not only can we expect significantly less than we would have earned, there is also increased risk to this funding stream in future years.
- 3.8.3 The MTFP will continue to be refreshed annually to take account of future changes in funding.
- 3.8.4 An assumption has been made that the Community Bid scheme will continue at a level of 25% per annum based on the additional New Homes Bonus payable for the year. For 2018/19 this equates to £79k.

### 3.9 Council Tax

3.9.1 Within the settlement the Government allowed Councils to increase Council Tax by up to 3% without the need for a referendum. The Council will decide the level of the council tax for 2018/19 on 21<sup>st</sup> February 2018. If the recommendations contained in this report are approved, the demand on the collection fund to meet the Council's own needs will be £7,910,079 representing a 2.99% (£6.29) increase on Band D Council Tax compared to the current financial year. The Council Tax relating to the Councils services will rise from £210.24 to £216.53.

### 3.10 General Fund

3.10.1 The level of the general fund balance is currently £4.2m. As part of the budget proposals for 2017/18 it was estimated that £279k would be returned to balances which would result in £4.5m remaining at 1st April 2018.

### Agenda Item 5 BROMSGROVE DISTRICT COUNCIL

### CABINET

### 7th FEBRUARY 2018

3.10.2 Should the budget be approved as included in the projections above the draw down over the 4 years will be £1.6m and therefore maintain £2.9m for future use. As members are aware a report will be presented in March to consider options and funding requirements for the replacement Sports Hall.

### 3.11 Collection Fund

3.11.1 The collection fund has a declared surplus of over £600k as at March 2017 which will be distributed amongst the major preceptors using the prescribed formulae. This Councils share of the surplus payable as a one off sum is £109k.

### 3.12 Precepts

3.12.1 The precepts from Worcestershire County Council, the Hereford and Worcester Combined Fire Authority, and the West Mercia Police Authority have not yet been received. The precepting bodies have until 28 February to provide this information, which will be needed to enable the Council to make its formal decisions. Precept notifications have been received from all of the parish and town councils.

#### 3.13 Capital Programme

3.13.1 The Capital Programme has been extended to a 4 year rolling and officers are currently working to ensure that the level of expenditure falls within the current estimated project allocation. The borrowing costs associated with any schemes have been factored into the revenue summary statement. The Capital Programme is attached at Appendix 4 for consideration. There are detailed business cases available for all capital projects should members wish to consider them further.

### 3.14 Efficiency Plan

- 3.14.1 The Efficiency Plan as approved in October 2016 included a number of areas whereby the costs to the Council could be reduced in a number of ways. The following key themes were identified to enable officers to manage the shortfalls in funding:
  - Identifying opportunities to increase income and growth
  - Identify alternative models of delivery in the provision of services and to consider the most appropriate provider
  - Identify further efficiency by continuing to drive waste out of services and reduce cost
  - Continue to redesign services to provide quality support and service to the customer whilst releasing savings
  - Assessing the value for money of service provided and demonstrating where resources can be realigned note 1

### CABINET

### 7th FEBRUARY 2018

- Designing services across public and voluntary sector organisations to secure better outcomes and reduce overall spend
- Resetting future budget to meet prior years expenditure and income
- 3.14.2 The budget includes the delivery of the savings and income as identified in the Efficiency Plan. As reported in the 2017/18 budget proposal there may be changes to the way that the savings are delivered when officers have reviewed the plans. The savings for 2018/19 detail how the financial pressures affecting the Council will be realised.

### 3.15 Current Position

- 3.15.1 When proposing the budget officers have also identified a number of budget pressures that have been deemed "unavoidable". Unavoidable includes the ongoing effects of pressures identified during 2017/18 together with any issues that have been raised as fundamental to maintaining service provision as part of the budget process. In addition income shortfalls that cannot be managed by improved marketing or price increases have been addressed during the budget planning. The pressures and income shortfalls are identified at Appendix 1
- 3.15.2 In addition to the unavoidable pressures revenue bids have been identified and included at Appendix 2. The main bid relates to £150k in relation to the ongoing transport assessment work that is being undertaken for the Council. This is a one year only request for 2018/19.
- 3.15.3 In addition to Heads of Service proposed savings there have been a number of suggestions from staff in relation to efficiencies and income that could be realised. These are included at Appendix 3.

### 3.16 Financial Position

- 3.16.1 The final summary position below includes the financial impact of the above in addition to the following assumptions:
  - 2% pay award in relation to the National Agreement in place. The initial budget was increased by 1% but the revised 2018/19-2019/20 takes into account the nationally proposed 2% increase for staff
  - General inflationary increases in relation to contract arrangements
  - An nationally set increase of 20% in planning fees that are to be utilised on investments and resourcing to the service.
  - Payment of "negative grant" to the Government in 2019/20 -2021/22 of £740k pa. This remains to be confirmed as part of the localisation of pusiness rates implementation

### 7th FEBRUARY 2018

- Increases as per the fees and charges proposals
- Borrowing costs resulting from the capital programme
- An estimation of the New Homes Bonus income based on planning numbers
- Additional growth income estimated in relation to the Business Rates receivable by the Council
- Council Tax at 2.99% for 2018/19-2019/20 and £5 for 2020/21-2021/22
- Draw down of £327k of reserves relating to vehicles
- Assumed that £20m investment and acquisition will be made by 2021/22. A rate of return of 5.33% has been included in the budget projections. Members should be aware that the draw down from balances will increase should no investments be identified.

3.17 As the table above shows there is a shortfall from 2019/20-2021/22 to be found by savings and additional income. There is a projected Page 51

### Agenda Item 5 BROMSGROVE DISTRICT COUNCIL

### CABINET

### 7th FEBRUARY 2018

shortfall on New Homes Bonus over the period compared to that originally anticipated when last years 4 year plan was approved. This is due to less growth in the Band D properties than that already anticipated as housing developments have not commenced. It is proposed that there is a drawdown from balances to meet the shortfall as detailed at 3.10, however officers will continue to review costs and income to ensure the level of balances is retained at an appropriate level.

3.18 Over the last 12 months the Finance and Budget working group, as established by the Overview and Scrutiny Committee has met on a regular basis to review costs, fees and charges and the capital programme and have made a number of recommendations to Cabinet.

### 3.19 Service / Operational Implications

3.19.1 The MTFP will enable services to be maintained and, where achievable, improvements to the community.

### **Customer / Equalities and Diversity Implications**

3.20 The impact on the customer has been reduced due to the savings being realised by reduction of waste in the services and ensuring that all service that create value to the customer are resourced.

### 4. **<u>RISK MANAGEMENT</u>**

- 4.1 To mitigate the risks associated with the financial pressures facing the Authority regular monitoring reports are presented to both officers and Members to enable proactive action being undertaken to address any areas of concern. Risks include:
  - Reductions in government funding leading to a reduction in the level of services delivered to the public
  - Reductions in business rates income as a result of appeals or reduction in the rateable value leading to a lower level of income for the Council.
  - Identification of sufficient and ongoing revenue savings to deliver a balanced budget.
  - Allocation of sufficient resources to meet the needs of service delivery and the Councils priorities.
  - Maintain adequate revenue and capital balances as identified in the MTFP to ensure financial stability.

The regular financial monitoring by Officers and Cabinet will provide a framework to mitigate the atpagests.

## Agenda Item 5 BROMSGROVE DISTRICT COUNCIL

## CABINET

### 6<sup>th</sup> December 2017

### FEES AND CHARGES

Relevant Portfolio Holder	Councillor Brian Cooper
Portfolio Holder Consulted	Yes
Relevant Head of Service	Jayne Pickering, Director of Finance
	and Resources
Wards Affected	All
Ward Councillor Consulted	No
Non-Key Decision	

### 1. <u>SUMMARY OF PROPOSALS</u>

1.1 To set out the fees and charges to be levied on services provided by the Council as used as the basis for income targets in the Medium Term Financial Plan 2018/19 – 2021/22.

### 2. <u>RECOMMENDATIONS</u>

- 2.1 It is recommended that Cabinet consider the fees and charges as included at Appendix 1 and;
- 2.1.1 **recommend to Council** the approval of all fees and charges that are included in Appendix 1 which have a proposed increase for 2018/19 over the currently agreed budget assumption of 2.8%.
- 2.1.2 **approve** the fees and charges as presented in Appendix 1 that have no increase for 2018/19
- 2.1.3 **approve** the fees and charges as presented in Appendix 1 that have reduced for 2018/19.

### 3. KEY ISSUES

### **Financial Implications**

- 3.1 The Medium Term Financial Plan has been prepared on the basis that additional income will be generated from fees and charges. The guideline increase provided to Heads of Service was 2.8% in line with CPI. However managers have been asked to look at their fees and charges to review demand and cost.
- 3.2 It is proposed that the revised fees and charges will be advertised to the public within approved deadlines with a start date of 1<sup>st</sup> January 2018, where an invoice has not already been raised covering the last quarter of the financial year, or as soon as practicable thereafter, dependant upon the notice period required prior to implementation.

## Agenda Item 5 BROMSGROVE DISTRICT COUNCIL

## CABINET

### 6<sup>th</sup> December 2017

3.3 There are a number of increases that are in excess of the 2.8% approval which are identified in Appendix 1. The Heads of Service have commented within the Appendix as to the reasons for the increase.

### Legal Implications

3.5 A number of statutes governing the provision of services covered by this report contain express powers or duties to charge for services. Where an express power to charge does not exist the Council has the power under Section 111 of the Local Government Act 1972 to charge where the activity is incidental or conducive to or calculated to facilitate the Council's statutory function.

### Service / Operational Implications

3.6 Monitoring will be undertaken to ensure that income targets are achieved.

#### Customer / Equalities and Diversity Implications

3.7 The implementation of the revised fees and charges will be notified in advance to the customer to ensure that all users are aware of the new charges and any concessions available to them.

### 4. <u>RISK MANAGEMENT</u>

4.1 There is a risk that if fees and charges are not increased that income targets will not be achieved and the cost of services will increase.

### 5. <u>APPENDICES</u>

Appendix 1 – Fees and Charges

### 6. BACKGROUND PAPERS

None.

7. <u>KEY</u>

None

	£	£		£	
SPORTS DEVELOPMENT	2.45	4.76%		2.20	
Community exercise class Specialised health class	3.15 3.15	4.76%		3.30 3.30	Increase reflects the additional acceleration acceleration acceleration to a list boots
Specialised health class	3.15	4.70%		3.30	Increase reflects the additional coaching cost to provide specialist health support
Primary Sports Project	22.05	13.38%		25.00	
Primary Sports Project				07.00	Need 2 rates, one which is a higher rate (specialist curriculum) where we have to pay the coach a higher hourly rate and the other which is a lower rate (standard curriculum) where we pay the coach lower hourly rate.
				27.00	
					The proposal is to change the pricing approach. The reason for this is that consultation with the school as this
After school session	24.20	-91.12%		2.15	gives them flexibility as they pay for each child who attends. The average yield per session is projected to be
					higher as the average session occupancy is 15 children. Proposal to charge £2.15 per child.
Activity Specific Coaching (Adults)	5.15	-2.91%		5.00	to ensure adults are encouraged to be active
Inclusive activities (hourly rate)	3.00	0.00%		3.00	
Inclusive activities (nouny rate)	3.00	0.00%		3.50	New charge to reflect the long session length that have been requested.
Inclusive activities (2 hour rate)				4.00	New charge to reflect the long session length that have been requested.
Adult Coach Session (requires facility hire)	3.80	0.00		3.80	no longer required
Holiday club rate	2.30	0.00		2.30	no longer required
	2.30	0.00		2.30	
Parks Activities				1.00	The approach holiday provision has changed based on user feedback, overheads reduced due to no facility hire- holiday activity
0					nonday activity
	4.45	0.00		1.15	
Corcessionary holiday club rate (free school dinners)	1.15	0.00		1.15	no longer required
Junior sport Specific Holiday club / sport session	2.65	1786.79%		50.00	To charge an hourly rate is no longer applicable to any sessions as all of the holiday camps are all provided over
66					5 days. The charge has been amended to reflect this duration and the improved service on offer.
					The surrent charge of 62.20 has not been applied as this charge related to an activity excession that is no longer
Multi Skills clubs (Junior sports activity)	2.30	52.17%		3.50	The current charge of £2.30 has not been applied as this charge related to an activity session that is no longer provided, the new charge is in line with other junior charges that are name and the session will be renamed as
					shown in the brackets next to the current little.
					אוטשורות נהפ טומנגפנא הפגר נט נהפ כטורפתר וונווס.
Activity referral	27.10	-37.27%		17.00	
	27.10	-51.21 //		17.00	This reduction in price reflects a reduction in program length from 10 weeks to 6 weeks. The weekly charge for
					10 weeks was £2.71 and the current recommended charge for 18/19 is £2.83 which is a 5% increase.
Community Gymnastics				3.50	1
Couch 2 5k				1.00	Couch to 5k was previously grant funded and as such a charge was no imposed as it was classed as a
					developed session. The funding has ceased so a charge of £1 is to be introduced to sustain the programme, this
					has been discussed with users and there have been no issues raised.
					コー コ
PSI Falls Prevention	3.00	0.00		3.00	
					This is a fixed cost as this is a county wide commissioned service with the price set in the contract.

		Fee Concession	s		

Fee Concessions

Some pre-application advice will still be provided free of charge. For example where the development is for the direct benefit of a disabled person (and as such there would be no fee incurred to make the planning application) or where works relate to a listed building. Some advice is provided at a reduced or concessionary rate. If the proposal is being submitted by or is for the benefit of a Parish Council or other Local Authority, then the appropriate fee is reduced by 50%. In addition if the scheme relates to a solely affordable housing scheme, the Applicant is a Registered Social Landlord or Housing Association the fee for pre application advice would also be reduced by 50%.

1 Before you build, extend or convert a building to which the building regulations apply, you or your agent must submit a Building regulations application. The charge you have to pay depends on the type of work, the number of separate properties, or the total floor area. You can use the following tables with the current charges regulations to work out the charges. If you have any difficulties, please do not hesitate to call us.

BUILDING CONTROL - APRIL 2018 - VAT AT 20% Explanatory notes

2 The charges are as follows. Category A: New domestic homes, flats or conversions etc. Category B: Extending or altering existing homes Category C: Any other project including commercial or industrial projects etc.

Individually determined fees are available for most projects. We would be happy to discuss these with you if you require. In certain cases, we may agree that you can pay charges in instalments. Please contact us for further discussions.

3 Exemptions and reductions in charges.

a If your plans have been approved or rejected, you won't have to pay again if you resubmit plans for the same work which has not started, provided you resubmit with 3 years of the original application date. b You don't have to pay charges if the work will provide access to a building or is an extension to store medical equipment or provide medical treatment facilities for a disabled person. In order to claim exemption, an application must be supported by appropriate evidence as to the nature of the disabled persons disability. In these regulations, a 'disabled person' is a person who is described under section 29(1) of the National Assistance Act 1948 (as extended by section 8(2) Mental Health Act 1959).

4 You have to pay VAT for all local authority Building Regulation charges, except for the regularisation charge. VAT is included in the attached fees.

5. Regularisation applications are available for cases where unauthorised building work was undertaken without an application. Such work can only be regularised where the work was undertaken after October 1985 and not within the last 6 months. The Authority is not obliged to accept Regularisation applications. Regularisation application fees are individually determined. Please contact us to discuss regularisation application fees.

6. Reversion applications. Where the control of a building project passes from a third party to the Council a reversion application will be required. Reversion application fees are individually determined.

Other information

These notes are for guidance only and do not replace Statutory Instrument 2010 number 0404 which contains the full statement of the law, and the Scheme of Recovery of Fees dated April 2014. 1 2 These guidance notes refer to the charges that you have to pay for building control services within North Worcestershire.

Telephone payments are accepted. Please contact the relevant payment centre with your address and card details:

If they are not, the building control service may impose supplementary charges.							
Building Control – Supplementary Charges If Ju are selling a property that has been extended or altered, you need to provide evidence to prospective purchasers that any relevant building work has been inspected and approved by a Building Control Body. That evidence is in the form of a Building Regulations Completion / Final Certificate and / or an Approval or Initial Notice (called the 'authorised documents' in the Home Information Pack Regulations). Ledentitlement to a Completion Certificate is subject to conditions. In cases where the Council is not told that building work is completed, or the building is occupied without addressing outstanding Building Regulation matters, a certificate is not issued. Despite the best efforts of the Council's								
$\sim$	D Building Control Surveyors, many home owners who undertake building works fail to obtain a Completion Certificate and their application is archived. A fee is payable to re-open archived building regulations applications for the purposes of issuing a completion certificate.

*Charges Note* Under the Building (Local Authonity Charges) Regulations 2010 local authonity building control is not permitted to make a profit or loss. The service is to ensure full cost recovery and no more. Any surplus or loss made against expenditure budgets is to be offset against the following years fees and charges setting. In addition, the level of competition from the private sector needs to continually defended against therefore it is proposed to curtail both the extent of fee categories published and to make extensive use of the fact that legislation now allows local authorities to offer site specific quotations for building regulations applications. In addition expenditure of the service has reduced since the creation of a shared service resulting in a reduction in the hourly rate charged by the service.

Property not subject to non-domestic rates will fall into Band A. Properties, which have not yet been constructed will fall into band C.					
Those premises which fall into Band 'D' will be subject to two times the amount of fee payable as outlined above, whilst those premises which fall into Band 'E' will be subject to three times the amount of fee payable, <b>if they are used exclusively or primarily for the carrying on of the retail of alcohol for consumption on the premises</b> , i.e. large public houses.					
Large Events An additional fee will be charged where the maximum number of persons exceeds 5000 at a licensable event. Please contact the Licensing Section for further details. Exemptions Church Halls, Community Halls, Village Halls, or other similar building etc. are exempt from paying any fees for a premises licence authorising ONLY the provision of regulated entertainment. If the retail of alcohol is to be included in the Premises Licence, the full fee will be payable as outlined above. No fees are payable by an educational institution, such as a school or a college (whose pupils/students have not attained the age of 19) for a premises licence authorising ONLY the provision of regulated entertainment providing that is for and on behalf of the educational institution.

## **CABINET LEADER'S WORK PROGRAMME**

## 1 MARCH 2018 TO 30 JUNE 2018 (published as at 1<sup>st</sup> February 2018)

This Work Programme gives details of items on which key decisions are likely to be taken in the coming four months by the Council's Cabinet

The Work Programme gives details of items on which key decisions are likely to be taken by the Council's Cabinet, or full Council, in the coming four months. **Key Decisions** are those executive decisions which are likely to:

- (i) result in the Council incurring expenditure, foregoing income or the making of savings in excess of £50,000 or which are otherwise significant having regard to the Council's budget for the service or function to which the decision relates; or
- (ii) be significant in terms of its effect on communities living or working in an area comprising two or more wards in the district;

you wish to make representations on the proposed decision you are encouraged to get in touch with the relevant report author as soon as consible before the proposed date of the decision. Contact details are provided, alternatively you may write to the Head of Legal, Equalities cond Democratic Services, Parkside, Market Street, B61 8DA or e-mail: <u>democratic@bromsgroveandredditch.gov.uk</u>

The Cabinet's meetings are normally held every four weeks at 6pm on Wednesday evenings at Parkside. They are open to the public, except when confidential information is being discussed. If you wish to attend for a particular matter, it is advisable to check with the Democratic Services Team on (01527 881443) to make sure it is going ahead as planned. If you have any queries Democratic Services Officers will be happy to advise you. The full Council meets in accordance with the Councils Calendar of Meetings. Meetings commence at 6pm.
