Worcestershire Regulatory Services

Supporting and protecting you

Joint Committee 24 November 2011

REGULATORY SERVICES FINANCIAL MONITORING APRIL - SEPTEMBER 2011/12

Recommendation

That the Committee

• consider the financial position of the service for June – September 2011.

Contribution to **Priorities**

The development of a robust budget and financial management framework will ensure the priorities of the service are delivered within the agreed budget.

Introduction/Summary

The Worcestershire Shared Service Partnership commenced on the 1st June 2010, this is the second year for the operation of the joint provision of the service. The budget for this financial year (2011/12) was approved by the Joint Committee on the 25th November 2010.

This report provides members with details of the financial position from April 2011 to September 2011.

Background

As part of the financial managements arrangements relating to the service a regular monitoring statement is produced for Members to ensure that costs are managed within the budget approved by participating Councils.

The Head of Service has regular discussions with finance colleagues to review costings and to address any issues that may arise.

The Regulatory Services Management and Project Board also consider the reports on a monthly basis.

Report

The following statements are included for the Committee's attention:

- Revenue Monitoring April September 2011/12 Appendix 1
- Capital Projected outturn position 2011/12 Appendix 2

Revenue Monitoring

Appendix 1 details the financial position for the Regulatory Services function for the period from 1st April to 30th September 2011, with a projected outturn to the end of the financial year.

Reasons for variations in the expected level of expenditure are included on the Appendix. These have been agreed with the Head of Service and actions are in place to mitigate any current overspends to budget.

Salary – significant underspend

The 2011/12 salary budget projects a saving of £190k due to salary savings arising from two Grade B posts remaining vacant. Plans are in place to recruit to one of the Grade B posts within the next 2 months. When a start date has been agreed the financial statements will be adjusted accordingly.

<u>Car Allowance – overspend</u>

The overspend anticipated on the Car Allowance budget of £13k reflects the agreement made to pay a 12 month disturbance allowance to staff for mileage costs associated with the move to Wyatt House. This is absorbed by other savings within the service and has ensured that staff are supported financially during the transition.

The projected underspend has increased from that previously estimated (£46k). This is due to a number of reasons:

- The continued staff vacancies as detailed above.
 - A reduction in the anticipated expenditure on Furniture and Equipment as much of this was brought into the service from the partners.

<u>Transformation Project - Projected Outturn</u>

Capital spend in this financial year continues to be lower than anticipated, due to the decision to undergo transformation of the service before establishing its ICT needs. Appointment of a Project Manager is anticipated in November, with the process for the procurement of the Management Information System commencing in December 2011 following the result of the Transformation review, with procurement completed in March 2012.

Financial Implications

None other than those stated in the Appendices

Sustainability

None as a direct result of this report
