Dear Mr Dicks,

**Winter Green Waste Collection**

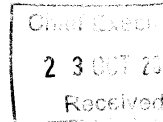

The Parish Council has asked me to write to you to lend its support to the representations you have received from other local parish councils about the suspension of winter collections of green waste. The Council agrees that it would be helpful if collections could either continue for longer or continue at monthly intervals throughout the winter period.

If this would be feasible, perhaps monthly collections could be piloted in one or two local parishes to assess their viability.

Yours sincerely
