<b>Aim of Project:</b>	Refurbishment of the grounds to provide the children with a much safer all-weather playtime environment and a greater space for use in community events and to meet the needs of increasing pupil numbers.

<b>Category</b>	<b>Comments</b>
1. Which Council Strategic Purpose does it meet?	<ul style="list-style-type: none"> <li>• Provide good things for me to see, do and visit.</li> </ul>
2. Aims and objectives of the project?	<p>Belbroughton CE Primary School is an integral part of the village and the community that it serves. Its aim is to give every child that attends the best possible start in life and the confidence and skills to go into the world ready to be a responsible citizen.</p> <p>The school encourages the children to make a positive contribution to the school and to the local community in order to encourage good citizenship and caring for the environment.</p>
3. Evidence Project meets local need and has local support?	<p>The number of children attending the school is increasing steadily, in part due to the new housing schemes in the area.</p> <p>As a small rural school, it does not have the funding available that larger schools have, it relies on the PTA to fund many projects. Due to the cost of this project the school would hope to offer the grounds to the local community. The school grounds have been used for a range of village activities previously, including the Scarecrow</p>

	Weekend and Family Fun Day.
4. Evidence that the Project is sustainable and has other funding streams?	If only part of the funding was available the project would be reduced. £6,000 has been committed by the PTA and the School have requested £4,000 from the Parish Council.
5. Signed by Ward Councillor and supporting comments.	No information in respect of this section was provided on the form.
6. Details of any Additional Information Provided	Photographic evidence in respect of the current condition of the grounds was provided together with a copy of a quotation for the resurfacing works.
