Dear Gavin

I write with reference to your below enquiry.

There is an approved management plan on the property with associated thinning permission due to expire on 11th June 2023.

Whilst FC, Forest Services has an interest in the property I have no objection to a TPO being placed on the woodlands.

I see the TPO as no constraint going forwards on both any current agreed Forest Services UKFS approved plan or felling licence or any fully consulted future application for tree works, which demonstrates good sustainable woodland management.

Hope this clarifies our position.
