

**BROMSGROVE DISTRICT COUNCIL**

**COUNCIL**

**19<sup>th</sup> September 2018**

---

**NOTICE OF MOTION – Air Pollution**

The following Notice of Motion has been submitted in accordance with Procedure Rule 10 by Councillor P. McDonald:

“With the undisputed evidence that air pollution well below the legal limit causes not only respiratory problems but heart failure and that many areas within our district are only just below the legal limit; that this Council takes the following action.

1. That it calls upon the Government to reinstate the feed-in tariff project which encouraged householders to install solar panels.
2. That it tasks its officers to report to Council on the feasibility of:
  - Purchasing/leasing electric vehicles
  - Installing electric chargers on local authority land.
  - The Installation of solar panels on its properties.
  - Working closely with the county council to restructure roads where necessary to reduce pollution.

Residents are quite rightly concerned regarding the levels of pollution and this council has a duty to take the appropriate steps to reduce pollution and protect the health of those it represents.”
