## **Bromsgrove District Council**

## **Building Control – Supplementary Charges**

If you are selling a property that has been extended or altered, you need to provide evidence to prospective purchasers that any relevant building work has been inspected and approved by a Building Control Body. That evidence is in the form of a Building Regulations Completion / Final Certificate and / or an Approval or Initial Notice (called the 'authorised documents' in the Home Information Pack Regulations).

Legal entitlement to a Completion Certificate is subject to conditions. In cases where the Council is not told that building work is completed, or the building is occupied without addressing outstanding Building Regulation matters, a certificate is not issued. Despite the best efforts of the Council's Building Control Surveyors, many home owners who undertake building works fail to obtain a Completion Certificate and their application is archived. A fee is payable to re-open archived building regulations applications for the purposes of issuing a completion certificate.

Other charges are payable where we are asked to withdraw a Building Regulations application and refund fees, or asked to re-direct inspection fee invoices. Fees are payable in cleared funds before the release of any authorised documents or other actions listed below.
