Sector Update	04

The contents of this report relate only to the matters which have come to our attention, which we believe need to be reported to you as part of our audit planning process. It is not a comprehensive record of all the relevant matters, which may be subject to change, and in particular we cannot be held responsible to you for reporting all of the risks which may affect the Authority or all weaknesses in your internal controls. This report has been prepared solely for your benefit and should not be quoted in whole or in part without our prior written consent. We do not accept any responsibility for any loss occasioned to any third party acting, or refraining from acting on the basis of the content of this report, as this report was not prepared for, nor intended for, any other purpose.

Grant Thornton UK LLP is a limited liability partnership registered in England and Wales: No.OC307742. Registered office: 30 Finsbury Square, London, EC2A 1AG. A list of members is available from our registered office. Grant Thornton UK LLP is authorised and regulated by the Financial Conduct Authority. Grant Thornton UK LLP is a member firm of Grant Thornton International Ltd (GTIL). GTIL and the member firms are not a worldwide partnership. Services are delivered by the member firms. GTIL and its member firms are not agents of, and do not obligate, one another and are not liable for one another's acts or omissions.

Introduction

Your key Grant Thornton team members are:

This paper provides the Audit, Standards & Governance Committee with a summary of emerging national issues and developments that may be relevant to you as a local authority.

Members of the Audit, Standards & Governance Committee can find further useful material on our website, where we have a section dedicated to our work in the public sector. Here you can download copies of our publications www.grantthornton.co.uk.

If you would like further information on any items in this briefing, or would like to register with Grant Thornton to receive regular email updates on issues that are of interest to you, please contact either your Engagement Lead or Engagement Manager.

Sector Update

Authorities continue to try to achieve greater efficiency in the delivery of public services, whilst facing the challenges to address rising demand, ongoing budget pressures and social inequality.

Our sector update provides you with an up to date summary of emerging national issues and developments to support you. We cover areas which may have an impact on your organisation, the wider local government sector and the public sector as a whole. Links are provided to the detailed report/briefing to allow you to delve further and find out more.

Our public sector team at Grant Thornton also undertake research on service and technical issues. We will bring you the latest research publications in this update. We also include areas of potential interest to start conversations within the organisation and with audit committee members, as well as any accounting and regulatory updates.

Levelling up White Paper – Department for Levelling Up, Communities and Housing (“DLUCH”)

On 2 February the Department for Levelling Up, Communities and Housing (“DLUCH”) published its Levelling Up White Paper.

The paper states “Levelling up requires a focused, long-term plan of action and a clear framework to identify and act upon the drivers of spatial disparity. Evidence from a range of disciplines tells us these drivers can be encapsulated in six “capitals”:

- Physical capital – infrastructure, machines and housing.
- Human capital – the skills, health and experience of the workforce.
- Intangible capital – innovation, ideas and patents.
- Financial capital – resources supporting the financing of companies.
- Social capital – the strength of communities, relationships and trust.
- Institutional capital – local leadership, capacity and capability.”

The paper also states “This new policy regime is based on five mutually reinforcing pillars.” These are set out and explained as:

- 1) The UK Government is setting clear and ambitious medium-term missions to provide consistency and clarity over levelling up policy objectives.
- 2) Central government decision-making will be fundamentally reoriented to align policies with the levelling up agenda and hardwire spatial considerations across Whitehall.

- 3) The UK Government will empower decision-makers in local areas by providing leaders and businesses with the tools they need.
- 4) The UK Government will transform its approach to data and evaluation to improve local decision-making.
- 5) The UK Government will create a new regime to oversee its levelling up missions, establishing a statutory duty to publish an annual report analysing progress and a new external Levelling Up Advisory Council.

Grant Thornton – reaction to Levelling up White Paper

On 2 February the Department for Levelling Up, Communities and Housing (“DLUCH”) published its Levelling Up White Paper.

Commenting on the release of the government’s Levelling up White Paper plans, Phil Woolley, Head of Public Sector Consulting, Grant Thornton UK LLP, said:

“The publication of today’s White Paper plans is a welcome first step and it is reassuring to see the government recognise the need for systemic changes in order to deliver its central aim of Levelling up. The ‘12 missions’ can be seen as an attempt to consolidate existing elements of government activity behind a singular banner and now provides a clearer picture of the levelling up opportunity.

“Following a decade of successful regional devolution and mayors, the White Paper marks the next stage of the country’s devolution journey. With government now offering a clear framework of devolved powers and accountability, local leaders will need to embrace the opportunity and collaborate across the public and private sector to ensure they negotiate and then deliver the best deal for their communities. Grant Thornton’s Levelling Up Index shows that the economies of the 10 worst performing local authorities in England are on average over five times smaller than their best performing counterparts - highlighting the scale of the challenge ahead.

“To level up, these areas would need to grow their economies by £12billion, increase employment rates by 6 percentage points, create 1,700 new businesses a year and increase average weekly pay by £200. It is too early to determine whether the measures announced today will be sufficient, but it is a start. Success will ultimately depend on the ability and willingness of local and national government to translate these new frameworks into meaningful change in people’s lives.

“The Spending Review offers the next opportunity for government to show its commitment by realigning departmental objectives behind these new goals.”

Emergency consultation on 2021/22 reporting requirements – CIPFA

On 4 February CIPFA released an emergency four week consultation on time limited changes to the Code to help alleviate delays to the publication of audited financial statements. This explores two possible changes that might be made as an update to the 2021/22 code and to the agreed position in the 2022/23 code.

The decision to launch the consultation came after the Department for Levelling up, Housing and Communities (DLUHC) asked CIPFA to consider amendments to the Code of Practice on Local Authority Accounting, after just 9% of local audits for 2020-21 were published on time.

After considering a wide range of options CIPFA LASAAC decided to explore two approaches:

- 1) An adaptation to the code to allow local authorities to pause professional valuations for operational property, plant and equipment for a period of up to two years (though the initial proposal is for the 2021/22 financial year); this approach also explores the use of an index to be used to increase or reduce that valuation
- 2) Deferring the implementation of IFRS 16 Leases for a further year and reversing the planned changes to the 2022/23 code to implement that standard.

CIPFA Chief Executive Rob Whiteman said: “DLUHC is understandably concerned about this growing crisis – and CIPFA shares this concern. We are committed to supporting CIPFA LASAAC in its exploration of the options that may improve timeliness issues, without significantly impacting accountability. But this is a difficult issue, and we need feedback from stakeholders on whether and how this might work.”

CIPFA said that the changes do not represent the best form of financial reporting for local authorities, but are a “temporary expedient to help improve an unacceptable situation”.

The consultation closed on Thursday 3 March. Any updates to the Code are subject to oversight by the Financial Reporting Advisory Board before implementation.

The consultation can be found here:

<https://www.cipfa.org/policy-and-guidance/consultations/emergency-proposals-for-update-of-202122-and-202223-codes>

Summary of the Grant Thornton response

Property, Plant & Equipment Valuations

In principle we are very supportive of changes to the measurement basis for operational property, plant and equipment. However our view is that it is too late to effect change for the 2021/22 reporting cycle. Our response highlighted a number of difficulties with this approach, including the risk that some assets then fall outside of the requirement to be revalued every five years as a minimum, and the challenge of consistent application of indexation. The proposed amendments to the Code do not appear to override the requirement that the carrying amount does not differ materially from that which would be determined using the current value at the end of the reporting period, which stems from IAS 16:31. If the financial reporting requirements are not sufficiently tightly defined and auditors therefore cannot obtain sufficient and appropriate audit evidence to support this requirement, there is a risk that audit opinions could be modified as a result.

Deferral of IFRS 16 - Leases

The removal of the requirement for disclosure (based upon IAS 8) in 2021/22 is not likely to have a significant impact in terms of freeing up auditor time and audit work covering the disclosures in 2022/23 would then be required in the 2022/23 audit. Savings to preparer time and effort would depend on what progress has already been made in preparing for the imminent implementation of IFRS 16.

Prudential Code and Treasury Management Code – CIPFA

On 20 December CIPFA published the new Prudential Code for Capital Finance in Local Authorities (Prudential Code) and Treasury Management in the Public Services Code of Practice and Cross-Sectoral Guidance Notes (the Treasury Management Code).

CIPFA commented “These two statutory and professional codes are important regulatory elements of the capital finance framework in which local authorities operate. Local authorities are required by regulation to ‘have regard to’ their provisions. These two codes have been published a principles-based consultation from February to April, which was followed by a second consultation on the detailed changes to the code from September to mid-November.

The updated Prudential Code includes some substantive changes. Most notably, the provisions in Code which present the approach to borrowing in advance of need in order to profit from additional sums borrowed have been strengthened. Additionally, the relevant parts of Code have augmented to be clear that borrowing for debt-for-yield investment is not permissible under the Prudential Code. This recognises that commercial activity is part of regeneration but underlines that such transactions do not include debt-for-yield as the primary purpose of the investment or represent an unnecessary risk to public funds.”

The updated Prudential Code removes the "advance of need" terminology and emphasises the legislative basis for borrowing, namely that a local authority can borrow and invest for any legislative function and/or for the prudent management of their financial affairs.

The examples listed in the Code of legitimate prudential borrowing are:

- Financing capital expenditure primarily related to the delivery of a local authority’s functions;
- Temporary management of cash flow within the context of a balanced budget;
- Securing affordability by removing exposure to future interest rate rises; or
- Refinancing current borrowing, including replacing internal borrowing, to manage risk or reflect changing cash flow circumstances.

Good practice in annual reporting – NAO

The National Audit Office (NAO) has published this guide which sets out good practice principles for annual reporting with examples from public sector organisations

The NAO comment that the guide sets out “good-practice principles that we believe underpin good annual reporting. These principles are: Supporting Accountability; Transparency; Accessibility; and the need for the report to be Understandable.”

The NAO further comment “The best annual reports we have seen use these principles to tell the “story” of the organisation. It is important that stakeholders, including the public and Parliament, are able to hold an organisation to account. To do this effectively, stakeholders need to properly understand the organisation’s strategy, key risks that might get in the way of delivering this strategy and the effectiveness of their management, and the amount of taxpayers’ money that has been spent to deliver the outcomes the organisation seeks to achieve.”

The guide draws on examples of good practice from within each of the six sections of an Annual Report:

- Strategy
- Risk
- Operations
- Governance
- Measures of success
- Financial performance
- External factors

Although the guide does not include any local authority examples, those included, and the underlying principles, are equally relevant to all public facing organisations.

The guide can be found here:
