Above are the month on month, year on year comparisons - please note 2009 Jan to Mar increase in accident rate, this is better explained as 2008 Jan to Mar decrease due to Dolphin Centre closure for refurb.

Year end total (Reportable and non reportable) accidents:

There has been a reduction of 6.5% 2008/09 total vs 2007/08 total, lower than the previous years reduction of 20% 2007/08 vs 2006/07 totals.....still a reduction!!
