

Upholding the 4 Licensing Objectives.

General. - All four Licensing Objectives

We will be proactive in preventing crime and disorder, the prevention of public nuisance, the protection of children from harm and public safety. We will be in contact with the relevant authorities and work with them if any concerns or issues arise to ensure a positive outcome. All strategies put into place for the four licensing objectives will be reviewed regularly. We will be in contact with neighbouring businesses and residents and the relevant authorities to ensure that we are on top of any issues that may arise. Feedback will be taken on board and acted upon with any necessary improvements. Risk assessments will be taken regularly and updated accordingly. The DPS will ensure all steps are fulfilled.

b) The prevention of crime and disorder. We do not believe that a Pub watch Scheme is available in our area, therefore we will request to become members of any group/forum locally that we find. The sale and supply of alcohol to children (challenge 25) and to already intoxicated individuals will be refused. Any unlawful activity will be dealt with and reported to the relevant authority. All alcohol purchased to sell in our premises will be purchased from an approved Alcohol Wholesaler Registration Scheme (AWRS) supplier. If CCTV is to be installed, clear notices will be displayed in all relevant places. All storage areas will be locked and a notice stating private staff only. The venue has shutters on the front windows and door. If it is deemed necessary to do so, qualified SIA registered door supervisors will be employed, however, because of the nature of our business we do not envisage the need for door supervisors. We will work with local businesses and the local policing unit to prevent potential problems. To commit to proper day to day running of the premises, the DPS will take control of the sale of alcohol.

c) Public safety. All health and safety regulations will be followed. Regular risk assessments will be taken and improvements will be put in place where needed. An accident record book will be used and updated as necessary. There will always be at least one member of staff with first aid training at the premises and training will be updated when necessary. The license holder will ensure that members of staff will receive appropriate and up to date training. Accident prevention will be in place at all times and a risk assessment framework to protect staff, customers and members of the public will be updated and kept on top of at all times. Overcrowding will be avoided to keep members of the public, customers and staff safe. Maximum capacity information given by the relevant authority will be followed. Fire safety guidelines given by the relevant authority will be put in place and followed. We have two hardwired smoke alarms installed and a fire

extinguisher that is away from the public area so no tampering can occur. A Public Liability Insurance Policy will be maintained.

d) The prevention of public nuisance. To prevent public nuisance, we will be promoting responsible drinking. Refusal to serve already intoxicated persons will be acted upon. Off sales will be in sealed containers (bottles, cans) to be consumed at home. A sand bucket will be kept outside the front door to ensure cigarettes, matches etc are extinguished properly and disposed of correctly. This will be regularly checked on by staff. This will be bought indoors at closing and will be checked and dampened to ensure there is no risk of smoldering and/or fire. Noise will be kept to a minimum. Exit doors will be kept closed to contain noise. Any music will be low level, quiet background music so as not to disturb conversation between customers. Any live music will be acoustic, without the need for speakers or loud microphones. No cooking will take place in the property. Any heating of food or snacks will be via a microwave so no smells will escape the property. A sign will be made visible on exit of the property instructing customers to consider nearby residents and businesses and please leave quietly. If an outside seating area is allowed, tables will be cleared of empty glasses and litter to minimise the risk of breakages, littering etc. The street furniture will be brought indoors at the end of the day. Light pollution will not be an issue. We will have ambient lighting within the unit. No spot lights, strobe lighting, flashing lights of any kind will be used at the unit. We have had a noise report commissioned and it states that it is considered likely that the proposal may operate without causing adverse impact on neighbouring premises from a noise perspective.

e) The protection of children from harm. We will have clear signage stating time restrictions for children accessing the pub. Children under the age of 18 will need to be accompanied by a responsible adult. The Challenge 25 scheme will be in place to ensure that no underage purchasing of alcohol, access to alcohol and/or alcohol consumption takes place within the pub boundaries. Anyone attempting to buy alcohol for an underage person will be refused the sale. A challenge and refusal book will be kept up to date. Signs will be clear and visible, informing customers that underage drinking is an offence. Photographic ID with the PASS hologram will be required by staff to confirm proof of age before a purchase is made, and that buying alcohol on behalf of an underage person is also an offence. The use of bad language will be unwelcome within the pub as will be any form of abuse and violence, drug use and gambling. Any unwanted activity will be dealt with and if any assistance or advice is needed we will liaise with the relevant authority and follow any guidance given. Films with an age restriction or otherwise will not be shown at the premises Any suspicion of child sexual exploitation will be reported to the relevant authorities immediately
