

**Bromsgrove District Council
Planning Committee**

**Committee Updates
5th June 2023**

22/00469/FUL The Stables, Dale Lane, Lickey End, Bromsgrove

One additional representation has been received raising objection to the application. The comments received are as follows:

I strongly object to the planning application. The surrounding area being considered for mixed use is a haven for local wild life and this obvious next step in violating green belt regulations will disrupt precious animals and birds. From a human perspective the small country lane that services this area is narrow and busy at certain times of the day. There are a number of "near miss" accidents most days with drivers. If the travelling community are seeking permanent grounds can I suggest the council discuss the many brown field sites going without use in nearby council districts ? This is clearly a commercial venture by the land owner and if green belt land is to be abused in this manner it would be a sad day for our society, one of the duties of the planning department is to maintain the legacy of an area for future generations. I can think of no legitimate reason why this planning permission would be granted.
