

Appendix 1 – Discrepancy Parish / Ward Boundary

Map 1: Parish and Ward Boundary Discrepancy

The map below illustrates the current misalignment between the ward boundary (shown in black) separating Hagley East / Hagley West Wards and the Belbroughton and Romsley Ward, and the parish boundary (shown in purple) between Hagley Parish and Clent Parish.

This discrepancy arose following a CGR undertaken in 2014/2015, for which a Related Alteration was not submitted to the LGBCE to amend the corresponding district boundaries. While there are currently no registered electors within the affected area, it is considered important to rectify this anomaly to ensure alignment should any future development occur.
