JOINT ARRANGEMENTS

This section sets out the joint arrangements the Council has entered into with other local authorities, and is divided into the following parts:-

- Shared Services with Redditch Borough Council
- Other arrangements

1. Shared Services with Redditch Borough Council

The Council operates shared services with Redditch Borough Council. Whilst both councils are politically independent, they have a joint chief executive and a joint management team. The shared services arrangement is facilitated primarily by the Local Government Act 1972 and the Local Government Act 2000, and operates in accordance with service specific agreements and the Overarching Framework Agreement between the two councils.

In 2009 Bromsgrove District Council and Redditch Borough Council took the decision to work in partnership. The first step was the appointment of a joint chief executive and in 2010 this was followed by the appointment of a joint management team. The co-operation between the Council was formally recorded in a legal agreement known as the "Overarching Framework Agreement" which was signed in 2011.

The overall aim was to introduce collaborative working, bringing teams together to provide services jointly across the two councils, and delivering savings and efficiencies for both councils. From the outset both Councils chose to remain politically independent, with separate processes for decision making and operating independent budgets and spending.

Working practices have been put in place through the Overarching Framework Agreement and under the relevant local government legislation, and officers employed by one Council may carry out functions for the other in accordance with the Councils' respective Schemes of Delegation.

Since the introduction of shared services savings and efficiencies have been found by the reduction in senior management posts and subsequent re-structures as teams have been brought together.

Other benefits have included increased resilience for teams, cultivation of greater expertise and specialism amongst staff and economies of scale. As collaborative working has developed over time, further savings and efficiencies have been achieved from procurement initiatives, services reviews and service re-designs.
