

**BROMSGROVE DISTRICT COUNCIL**

**CABINET**

**3RD MARCH 2010**

**SUPPORTING PEOPLE STRATEGY 2010 - 2013**

Responsible Portfolio Holder	Cllr Peter Whittaker
Responsible Head of Service	Head of Planning & Environment
Key Decision	

**1. SUMMARY**

- 1.1 Nationally the Supporting People programme offers housing related support to over a million vulnerable people in the UK. The Worcestershire Supporting People programme provides strategically planned housing-related support services to vulnerable people with the goal of supporting them to achieve a range of outcomes that will improve their quality of life.
- 1.2 A new Supporting People Strategy for the period 2010 - 2013 has been developed by the Worcestershire Supporting People Team. A draft copy of the new strategy was circulated by the Strategic Housing Manager to all Members in January for consultation and the opportunity for comments to be submitted directly to the Supporting People Manager.
- 1.3 The Strategy now comes before the Executive Cabinet for approval. The document is also in the process of being considered for approval by the County Council and the other District and Borough Councils within Worcestershire.

**2. RECOMMENDATION**

- 2.1 That the new Supporting people Strategy for the period 2010 – 2013 attached at Appendix 1 be approved.**

**3. GENERAL BACKGROUND TO SUPPORTING PEOPLE**

- 3.1 The Supporting People programme within Worcestershire is helping more than 20,000 vulnerable people each year to attain or maintain independence, through the provision of housing related support services. This includes older people, people with mental health issues, learning disabilities, physical disabilities, homeless, offenders, teenage parents, travellers, people with alcohol problems, people who have

suffered from domestic violence, young people at risk and young people leaving care.

- 3.2 The Supporting People programme was launched in April 2003 and comprises a funding, quality monitoring and needs assessment programme for housing related support services. Prior to Supporting People, housing related support was funded in a number of different ways and was not strategically planned and co-ordinated. Following the launch, one of the Supporting People responsibilities was to review all these services to ensure that they were strategically relevant, were eligible for SP funding, offered value for money and quality services.
- 3.3 The Supporting People programme is administered by the County Council on behalf of the Worcestershire Supporting People partnership, which consists of representatives of the 6 District Councils, the 3 Primary Care Trusts and West Mercia Probation Service as well as the County Council. The County Council in its role of administering authority, issues contracts to providers, makes payments and has responsibility for ensuring that the programme is effectively administered and delivered. The County Council has a key responsibility for the finances of Supporting People and the responsibility to work with its partners to deliver the best possible services within the resources available. Part of this responsibility is to ensure a robust Supporting People Strategy is in place setting out the direction in which services will change and develop to meet the needs of the local area.
- 3.4 The previous SP Strategy 2005 – 2010 that was approved by the Executive Cabinet back in February 2006 has now expired and following consultation with a broad range of partners and stakeholders is being replaced by the Strategy set out at Appendix 1 of this report.

#### **4. The Supporting People Strategy for 2010 - 2013**

- 4.1 The Supporting People Strategy 2010-2013 informs and embeds the commissioning intentions and priorities for helping the most vulnerable and excluded to contribute to wider society within Worcestershire. In addition it sets out how service users and providers can become a more integral element within the commissioning of the programme. The intention is for the most vulnerable people within the County to have services which are appropriate and responsive to individual needs and expectations thus preventing the need for intrusive intervention at the point of crisis.
- 4.2 The strategy sets out the direction the programme for the next 3 years in meeting vulnerable client needs, becoming more flexible and creative in meeting the rising demand for support services (taking into account changing demographics within the county).

- 4.3 As from April 2010, the Supporting People programme grant will become part of the Local Area Agreement's Area Based Grant (ABG). The 3 year strategy outlines the intention to align all current and future commissioned projects and their outcomes to those of the LAA priorities; thus ensuring local priorities within the County can be fulfilled in partnership. This is particularly important as under new arrangements effective from April 2010, the Supporting People Programme Grant and Administration budgets lose their ring fenced protection under these new funding arrangements. At this stage it is not clear to what extent the LAA will allocate budgets through the ABG and for 2010 / 11 it is expected that the Supporting People Grant will be passported back to the SP Partnership.
- 4.4 The strategy details the approach of the programme in aligning all 117 contracts to meet LAA priorities, a financial benefits model which identifies significant public cost savings as a result of these preventative services, and a range of projects the programme seeks to commission in 2010/11.

## **5. Summary Of The Commissioning Intentions For 2010 - 2013**

The review will provide a strategic framework for commissioning intentions for Worcestershire's Supporting People programme seeking to add value to existing provision, create a real life account for gaps in provision, identify opportunities for joint commissioning and create alignment to Local Area Agreement priorities (current and potential).

homelessness. This includes specific issues within mainstream housing and support including substance misuse issues, youth offending behaviour, learning disabilities and difficulties including Asperger's Syndrome, dyspraxia, minority ethnic groups particularly unaccompanied asylum seekers, teenage parents and young people who are pregnant and young victims and survivors of domestic abuse, and care leavers.

### **5.8 Teenage parents**

A comprehensive and integrated needs analysis for the following groups will also be commissioned to assist with actions within future annual plans.

- Training Needs Analysis for providers supporting HIV/AIDS
- Refugees and migrant communities
- Carers for all client groups

5.14 The strategy will be accompanied by an annual work plan, which will detail and organise activity to achieve the requirements of the strategy. An element of this work plan will be to ascertain the distribution of funding per District. Currently, there is not an equal split of funding by District. This is based on the way SP commission its provision – on need and priority target areas. Demographic and existing provision will determine the level of support needed by District, and it is also to be

noted that the countywide provision will offer support per District also on need. The initial stage of the work plan focus on the distribution of funding, identify changing demographics and ensure that allocation is representative. This will be supported by the housing lead officers.

- 6.2 The Programme's recurrent budget for 2010/11 has been set by DCLG at £14.5million. This recurrent budget is expected to be fully commissioned on provision and assessed to be meeting value for money expectation, services meeting the Quality Assessment Framework, and addressing the priority needs of the county in regard to these client groups.

Within the last 12 months significant developments have been made to ensure Supporting People services meet the priorities of the Local Area Agreement.
