NWBCU5	Total Crime	M	C	New	4,210	3,848	I	4,685	4,277	W	5,113	4,691	I	5,588	5,166	I	Crime levels remain low and within target. This is due to multi-agency work through the Bromsgrove Community Safety Partnership and the efforts of individual agencies. Bromsgrove CSP are currently developing their delivery plans to build on this success for next year against priorities such as Youth Related ASB, Environmental Crime, Violent Crime and Acquisitive Crime. New statutory responsibilities will be placed upon CDRPs from April 2010 to consider re-offending in their activities and Bromsgrove CDRP will be developing strategies over the next 12 months with the probation service as a new responsible authority under the CDRP. A re-offending strategy will positively impact upon all areas of crime.

NWBCU1	The number of domestic burglaries	M	C	438	293	194	W	326	233	W	356	276	W	389	309	W	There were 43 offences of domestic burglary in February which is above the expected trend for this time of year. Unfortunately this slightly higher volume of offences follows on from January's high number of offences. West Mercia Police are continuing their investigations into the links between these offences and two suspects who are known to have burglary offending habits. The volume of burglary is predominantly influenced by seasonal trends (darker nights) and prolific offenders. Burglary is expected to decrease in the coming months due to the lighter evenings but work is still ongoing to target prolific offenders.
NWBCU2	The number of violent crimes	M	C	973	714	767	W	784	870	W	846	952	I	922	1,028	W	The volume of Violent Crime during February has decreased in comparison to the previous five months although still slightly high. There has been a year to date increase of 8.4% in violent crime which will mean it is unlikely we will achieve our targets. A violent Crime profile has been produced which shows links to Domestic Violence, alcohol related disorder and assault without injury. A delivery plan to tackle violent crime is currently under development and will be launched in April 2010 as part of the CDRP Partnership Plan for 2010/11.
NWBCU3	The number of robberies	M	C	61	44	33	I	49	35	W	53	39	W	58	44	S	There were only three offences of Robbery during February, one more than the previous month. Robbery remains comfortably within target. This type of crime is of low volume and therefore not a current priority for Bromsgrove Community Safety Partnership or West Mercia Police, Each offence will be dealt with accordingly as they are received.
NWBCU4	The number of vehicle crimes	M	C	744	520	501	I	578	555	I	631	612	W	690	671	W	Vehicle crime is slightly high for February but has not returned to the volume experienced at the peak in the Summer. Bromsgrove CDRP are currently preparing their Spring Safety Plan which will run from April to June 2010 and start by placing interventions to tackle theft from motor vehicles at beauty spots in Clent and Lickey; a hot spot during the Easter Holidays. Police and Wardens will be providing high visibility patrols at both locations during key times.

The DWP will be publishing national performance information fro Q1 and Q2 of 2009 / 10 on 31st March which will allow us to compare performance to national statistics. February also included our year end uprates, which do not count towards this PI, but it does include over 1,000 rent increase changes that were automated and treated as a process time of just 1 day, hence the large improvement compared to last month.
