

Tenworth In Arden

Salihull

04-06-2010.

Dear Mr Davies,

Application for A Street Trading Consent
Bromsgrove District Council.

With reference to the above application, I would like to object to this in accordance with section 4.1(a) Public Safety is at risk from the location of the snow van, on a number of occasions I have come off the 435 bypass to get home and it has been blocked by large lorries being double parked. I have in fact had words with David Alesek about this, he has said

sorry but that is no consolation
if I am lying in hospital injured
and my car is being repaired.
There is no need for a burger
van in a rural residential
area. There are places selling
food for drivers on the 435 road.
There is a Portaloos at the side of
the road which on a couple of
occasions I have seen him
emptying at the side of the road
in the hedge this in itself is
going to cause health and
environment problems.

At weekends we also have
to put up with the car boot which
in itself is causing problems with
traffics backing up onto the 435
and on the Broad lane. We as
residents can't get into our own
Blind lane to get home.

When I decided to move

into a rural location. I thought it would be nice and peaceful, but gradually over time I feel I am on an Industrial Estate.

I strongly object to the application for a Snaz Bar on the grounds mentioned in this letter namely

- 1 Safety
- 2 Obstruction
- 3 Road Safety
- 4 Blocked Access to Blind Lane/Broad Lane

5 Environmental health issues

Yours faithfully

██████████ and ██████████
